

50 caliber down-the-hole drill rig

Our factory mainly produces water well drilling rigs, core drilling rigs, down-the-hole drilling rigs, pile drivers, etc. The products have been exported to hundreds of countries around the world ...

Because Down-The-Hole hammers use a rapid percussive action to crush the rock they require much lower feed force (pull down) and rotation torque than ...

The SmartROC D65 down-the-hole drill rig brings the future of mining within your reach today. Isn't it time you gave your operation the chance to profit from the added intelligence of the ...

YG Small DTH Drilling Machine DTH (Down-the-Hole) drilling technology places the hammer right behind the drill bit at the bottom of the hole. Instead of losing energy along the drill pipe, you ...

Explore the most comprehensive line of surface rotary and DTH blast hole drilling rigs in the industry, with a multitude of configurations to choose from and ...

The FlexiROC D50 is a sophisticated surface drill rig designed specifically for DTH drilling operations. It delivers high production rates while minimizing operational costs, making it ideal ...

DTH drilling rig, short for Down-The-Hole drilling rig, is a cornerstone of modern drilling technology. Renowned for its efficiency, precision, and versatility, this equipment has ...

It operates seamlessly with the drill rig, channeling the air or fluid down through the drill string. The down hole hammer then transforms this energy into a ...

In down-the-hole drilling a drill rod is fitted with a hammer at its lower end. The hammer, which is mounted on the drill bit, is activated through the addition of compressed air and driven into the ...

The Diedrich D-50 is our premier multipurpose drill rig for the environmental and geotechnical drilling industry. With up to 9,000 foot-pounds ...

Intelligent, automated and future-proof The SmartROC D65 down-the-hole drill rig brings the future of mining within your reach today. Give your operation the chance to profit from the ...

Leading Manufacturer of Down-the-Hole (DTH) Drilling Equipment for Mining, Construction & Water Wells. Premium products at fair prices. Get a Quote Today!

When choosing a down-the-hole (DTH) drilling rig, you need to consider various factors. This article will

50 caliber down-the-hole drill rig

guide you on how to choose the right down-the-hole ...

All-purpose drill rig for soil and rock explorations using augers, rotary tools, or core drilling tools. The new and improved 2024 and newer D-50 models now ...

Designed for DTH blasthole drilling in mining, quarry and construction industries, it comes with an operator's cabin, fixed boom, dry dust collector and drill pipe changer.

Utilizing the down the hole DTH drilling method, it supports hole diameters ranging from 3.5 inches to 5.12 inches and accommodates 4" and 5" hammers, making it a versatile choice for ...

Multifunctional Drilling Rig is a high-performance, multi-purpose machine designed to meet demanding drilling needs across various terrains and applications. Capable of operating with ...

A "down the hole" (DTH) drill is a drilling equipment used in mining, construction, and exploration activities. It is specifically designed for drilling large-diameter ...

Specifications GENERAL All purpose drill rig for soil and rock explorations using augers, rotary tool., or core drilling tools. Rated from 125 ft.(38m) to 250 ft.(76m) depth with hollow stem or ...

KQTG-150 Down-The-Hole drilling drig offers excellent fuel efficiency, improved safety and higher productivity in challenging rock conditions, which is used for production drilling applications in ...

Discover how the right down-the-hole (DTH) drill rig can boost your mining and construction efficiency. Learn about rig types, key features, and ...

Air capacity is the most important factor affecting down-the-hole performance. The engine and compressor in a SmartROC drill rig are controlled by an intelligent system which delivers more ...

Down the hole drill rig, also known as DTH drilling machine, is applied in mining, engineering, quarrying, geotechnical investigations, etc.

DTH rig machine, down-the-hole drilling rig, is a powerhouse drilling tool designed for deep, accurate, and efficient boring in demanding environments. Ideal for mining exploration, quarry ...

Leopard(TM) DI560 is a highly mobile, compact, diesel-powered down-the-hole (DTH) drill designed for DTH blasthole drilling in mining, quarry and ...

FlexiROC D50 is an equally versatile and efficient down-the-hole drill rig that keeps your production up and your costs down. Thanks to its flexibility and overall drilling capacity, it's just ...

50 caliber down-the-hole drill rig

Leopard(TM) DI560 is a highly mobile, compact, diesel-powered down-the-hole (DTH) drill designed for DTH blasthole drilling in mining, quarry and construction industries. Features include a self ...

Down-the-hole drilling (DTH) essentially involves a drilling hammer at the bottom of a drill string. It relies on three elements for drilling holes: bit loading (weight), rotation, and air.

The multipurpose drilling rig PRAKLA RB 50 is designed for different applications, e.g. drilling of water wells, mineral exploration, geothermal wells, geotechnical investigations and seismic ...

The DTH drilling rig (down-the-hole) is a highly efficient rock drilling equipment used in open-pit mines, stonework projects, road construction, and other scenarios. It is also called a shallow ...

Smith Capital Equipment has been manufacturing Auger and DTH drill rigs for over 4 decades and our products include auger and down-the-hole rigs. ...

Our Dietrich D-50 drill is mounted to a 2010 Ford F-650. This rig has a powerful turbo diesel deck engine, auto hammer, rock coring, mud rotary, air rotary and ...
