

Adr triple drilling rig

What is an ADR rig?

The ADR (Automated Drill Rig) 1500S is Ensign's most powerful next-generation of automated full-sized walking rigs. Ensign will roll out 24 of these new ADR 1500S rigs over the next 18 months.

Where are ADR 300 rigs working?

The rigs are working in California, Oman, Western Canada and Australia, drilling coal seam and traditional wells. In Bakersfield, Calif., ADR 300 rigs typically drill 2,000 ft in one day and move to the next well within 24 hours.

Which rig is best for drilling lateral sections?

The latest breed of our legendary ADR[®] is a more powerful, agile rig to drill long lateral sections in horizontal wells and execute rapid moves from pad to pad, the ADR[®] 1500S. Our ASR(TM) 150 is the industry's most advanced service rig.

What is a directional-ready rig?

The Directional-Ready rigs integrate downhole equipment and rig controls to ensure precise placement in extended-lateral wells. SmartRigs are further enhanced with the Navigator directional drilling platform for more accurate directional drilling decisions, and the ROCKit Pilot system, now in final testing.

What is Canada's longest drilling rig?

Earlier this year, an ADR super-spec rig equipped with the EDGE control system in Alberta set a record drilling Canada's longest land well, at a measured depth of 25,492 ft (7,770 m), in 14 days. The system also is being implemented in Argentina's Vaca Muerta formation.

Where are Ensign drill rigs made?

Ensign's ADR 1500S drilling rigs are designed and constructed in the Company's global rig manufacturing facilities located in Houston, Texas and Nisku, Alberta. Approximately half of Ensign's current global fleet are Automated Drill Rigs.

Programmable Drilling Features such as Anti-Collision High Pressure and High Horsepower Pumping Capacities Citadel has designed 2 types of AC Triple Drilling Rigs - TA[®]; CT Series 1 ...

ADR automated Drilling Rig. When you first work on one of these vs the old school triple stack rig. And then you work with this slow single tubing rig. #oilfield #oilrigs #oilworkers...

This advanced rig builds off-line double or triple stands while the rig is in full operation, with the ability to move to new well sites faster than other full-sized drilling rigs. ...

Adr triple drilling rig

Prometheus Energy Group, a supplier of LNG to remote industrial sectors, and Ensign United States Drilling announced the successful deployment of three additional ...

Ensign has the fleet flexibility to ensure the most efficient o Directional Drilling o Well Testing & Servicing management execution of wellbore construction.

Rig 4 Rig 4 is a self-propelled, hydraulically raised double with a depth rating of 8,500 feet. This Rig is a very fast mover and has an extremely small and flexible footprint. Rig 5 Rig 5 is a ...

ADR(r) 1500S walks on both X + Y axes, for the best mobility and flexibility of any rig on the market. The ADR 1500S is designed and built by Ensign Energy Services, a worldwide leader ...

Provides automated drilling rigs and services, including their ADR(TM) (Automated Drill Rigs), designed to improve safety and efficiency. ...

According to World Oil, Trio Petroleum Corp., an oil and gas exploration and development company focused on strategic, high-growth energy projects in California, signed ...

Ensign's ADR 1500S drilling rigs are designed and constructed in the Company's global rig manufacturing facilities located in Houston, Texas and Nisku, Alberta. Approximately ...

Explore the different types of drilling rigs from the oil and gas industry and understand how each one is built for specific depths, locations, ...

A new ADR (automated drilling rig) for Ensign Canadian Drilling also features an EXI model top drive. Rig 126 is a pad rig that can drill single, double or triple stands and is ...

The dual rotary drilling concept was developed by Barber Industries and commercialized with the introduction of a dual rotary rig in 1979. In 1993, this technology was ...

A new ADR (automated drilling rig) for Ensign Canadian Drilling also features an EXI model top drive. Rig 126 is a pad rig that can drill single, double or triple stands and is capable of self ...

Our Fleet Fast, Efficient Rigs Our fleet of, VELOX TM Triple drilling rigs, Heavy and Ultra-Heavy telescopic double drilling rigs, TDS (Top Drive Single) Series, and patented Hybrid rigs are ...

Precision Super Single™ Precision Drilling's Super Single is redefining the single rig category by challenging its rig class through unmatched performance, power, mobility, and versatility. The ...

When we launched our proprietary Automated Drill Rig (ADR®) in 1995, it was a fundamental advancement in drilling technology. Every year since, we have refined our ADR technology, ...

Adr triple drilling rig

The ADR azimuthal deep resistivity service provides additional benefits when run in combination with the RoxC ® geosteering software, allowing geosteering ...

Provides automated drilling rigs and services, including their ADR(TM) (Automated Drill Rigs), designed to improve safety and efficiency. Precision Drilling Offers the Super ...

The latest breed of our legendary ADR® is a more powerful, agile rig to drill long lateral sections in horizontal wells and execute rapid moves from pad to pad.

Our land drilling rig systems give you an edge in today"s most challenging drilling environments. Learn more about our high-tech drilling rig systems.

Earlier this year, an ADR super-spec rig equipped with the EDGE control system in Alberta set a record drilling Canada"s longest land well, at a measured depth of 25,492 ft ...

The work-horse of our fleet, the Super Triple 1200 (ST-1200) is a powerful yet versatile development drilling machine. It inherits the safety, high-power, high-efficiency traits of the ...

As his presentation at the 2010 IADC/SPE Drilling Conference in New Orleans on 4 February showed, in some cases, it can even outperform a ...
