

Products > Construction Equipment > Jack Hammers > Rock Drill - Air Leg - 26kg Rock Drill - Air Leg - 26kg R 8 950,00 ex. VAT R 10 292,50 inc. VAT Product Code: COMPRESSOR005C ...

An upward rock drill, also known as a telescopic upward rock drill, has its air legs connected to the main engine on the same longitudinal axis, specifically ...

Product Description YT29 Jack Hammer& comma; YT29 Rock Drill with air leg& comma; Rock Drill with 1500 times service lifeYT29A Air leg rock drill is a heavy-duty air leg rock drill with the ...

It would seem that the tool drills holes in rocks by using either compressed air or any other power source. It should be fairly compact and therefore can be used in small scale mining and ...

It has an air - leg support which provides stability during the drilling process. This allows the operator to position and control the drill more accurately. The drill bit of the air - leg rock drill ...

YT29A air-legged rock drills are heavy-duty push-leg (air-legged) rock drills with low energy consumption, which are more suitable for drilling horizontal or ...

We supply a full range of original spare parts for the YT29A air leg rock drill, ensuring your equipment maintains its high-performance standards and longevity.

YT24 air-leg rock drill has significant competitive advantages in high efficiency, low energy consumption, durability, easy operation and economy. It is an ideal rock drilling equipment in ...

YT28 Air-leg Rock Drill most fit for drilling horizontal and inclined blast holes in medium-hard and hard rock with a hardness of $f=8\sim 18$. It may also be used with for making roof-bolting holes. ...

YT28 Air Leg Rock Drills The YT28 air leg rock drills is used to drill horizontal and inclined blast holes in medium-hard rock with a hardness of $f=8\sim 18$. It may ...

AIR LEGS Air Legs Rockdrill maintenance that extend the life of your rock drilling equipment Key features of Double Telescopic Airlegs include: Lightweight Construction Independent Controls ...

Lubrication has a great influence on the performance and service life of the air leg rock drill. Air leg rock drills are strictly forbidden to work without oil. It is best not to use grease to lubricate ...

Application: YT24 Air-leg Rock drills is an ideal tools for drilling blast-holes operations small and

Air leg rock drill life

medium-sized quarries, mines. Combined with B22 drill rod and drill bit, select drill bits based ...

The Air Leg Rock Drill offers several competitive advantages. With an impact frequency of over 2000 times per minute and high torque, it achieves fast drilling speeds. Its ...

Air leg rock drill is a kind of pneumatic tool, which is widely used in mining industry and construction industry. But how to reduce the vibration of the air leg rock drill handle has ...

We manufacture and supply YT 28 Air leg Rock Drill at a factory competitive price with features: 1.CE certificate,, 2.Reliable quality,, 3.Long life time, 4 petitve price, easy to maintenance

YT24 air leg rock drill is a high efficiency rock drilling machine. It widely used in rock drilling blasting holes, it"s very important to coal mine, railway traffic, ...

Discover the essential air pressure and CFM requirements for pneumatic rock drills, their impact on efficiency, and strategies for improving drill performance. Learn how to match ...

Our rock drills are fully equipped to ensure long service life, high energy efficiency, low air consumption, as well as easy installation and operation. The ...

It is an efficient, energy saving rock drill. The BD-YT24 Air Leg rock drill has lower noise, higher durability, faster speeds and a lower failure rate than other comparable drills.

YT29A Air Leg Rock Drill (rock drill) is widely used for blasting holes and other drilling works in a mining,tunnel,hydro-power,quarries,railway construction, water conservancy construction and ...

The 7655 air leg rock drilling machine widely work in mining, tunneling, and construction projects for drilling blast holes and anchor holes in ...

YT29A air-legged rock drills are heavy-duty push-leg (air-legged) rock drills with low energy consumption, which are more suitable for drilling horizontal or inclined holes in medium-hard ...

The air-leg rock drill is an efficient drilling device powered by compressed air and is widely used in mining, tunneling, construction, water conservancy projects and other fields.

Power Technique products Find full details of the product you are looking for by drilling down through the images below, or click on the magnifying glass above to search for the type of ...

On average, a well-maintained drill can last anywhere from 5 to 10 years. However, if you use the drill in harsh conditions or don"t take good care of it, it may only last a ...

Air leg rock drill life

Our pusher legs and stoper rock drills cover all construction, tunnelling and mining applications in different rock formations. They are robust designed, ...

TUL2B and FL7 Feed Legs This dependable drill is built to hit harder and penetrate rock faster than any other drill on the market. For years it has been the work horse of the mining and ...
