

Ams 9600 drill rig auger square coupling

What are AMS PowerProbe drill rigs used for?

Mounted on pickup trucks, trailers, UTVs, skid loaders, tractors, or tracks, AMS PowerProbe direct push drill rigs are capable of performing soil, soil gas, and groundwater testing, monitoring, and sampling, as well as conducting a wide variety of geophysical and geotechnical assessments.

What is a 9500 series Rig?

The 9500 Series are our high-powered direct-push rigs. These rigs have augering capabilities with operator friendly engineering. With smaller carrier options available, users are allowed access to tighter areas with less footprint. If you're seeking deeper depths and extreme power, our 9500 Series will fulfill those needs and more!

What is a 9400 rig?

The 9400 Series is our mid-sized PowerProbe. This track and vehicle mounted rig is compact for limited access areas. While accessing restricted areas, we kept great augering and direct push drilling power in mind. With many choices kept in mind, a key performance option is our hydraulic systems being load sensed.

PowerProbe rigs can be custom-built to fit your specific needs! For those who need even more out of their rig, a 1,000 ft/lb. hydraulic auger drive head can be added to the 9120-RAP which ...

CME 75HT AUGER DRILL RIG (Ref#8148T) Manufactured 2004, 3 winches, wire line, 6" Moyno, in/out, side to side, split mast, hydraulic auger rack, 500 gal SS tank, rod box tool boxes, ...

Explore high-quality augers for drilling equipment. Find the right tooling for your drilling needs, and contact us for availability and pricing.

Our AMS 9570 offers a great deal of advantages and also has a large number of capabilities. Transporting this drill rig is our Freightliner rollback truck, which enables us to not only ...

9580-VTR Drillers seeking an extremely powerful direct push rig with rotary drilling and direct push sampling choose the 9580-VTR. The drilling and hammer system has hydraulic pivot and ...

AMS soil augers are commonly used throughout the world for obtaining disturbed soil samples at or near the surface and for boring to depths where samples may be obtained with a soil ...

The largest rigs in our hollow stem auger fleet are the CME 95s. With over 31,000 foot-pounds of torque and four forward gears, there's a rotation speed and torque combination for just about ...

892 Drive Cap for Diedrich 4 1/4 Augers- 2? Hex \$ 175.00 Add to cart 893 Concial Cutter Head for Diedrich

Ams 9600 drill rig auger square coupling

4 1/4 Augers- \$ 210.00 Add to cart 896 Good Earth Cutter Head - 4 1/4, 2K HD, Used ...

#985 - AMS Power Probe 9600 - Skid Steer #985 - AME 9600 PowerProbe Features: Small Compact Design for Direct Push Two Speed head mast shifts ...

1997 AMS 9600 Power Probe Drill Rig Comes with 24" ft of dual tube direct push tooling and a few boxes of 4" liners about 1400 hours on it Has a new auger head on it also Hammer was rebuilt ...

Equipped with a 90ft/lb. hydraulic hammer capable for direct push drilling and probing. The rig is also equipped with a winch line capable of lifting 2500lbs, ...

Controlled freefall is a critical part of productive drilling. The 2100's controlled freefall rate of speed is adjustable to meet the needs of the operator and ...

The 9570-VTR PowerProbe is a versatile drill rig that can be used in most environmental and geotechnical applications. It features a Tier-4 ...

The New 9580-VTR PowerProbe(TM) is powered by a tier 4, 60 HP John Deere liquid-cooled diesel engine, and has an increased diesel fuel storage to 30 gallons. The new auger and hammer ...

Mini soil auger kits provide convenient, user-friendly, and portable setups for manual drilling to depths of 12" or 16" (3 or 5 meters), perfect for soil sampling, general soil investigation, and ...

As we recognize the increasing demand for soil auger types tailored to specific soil sampling conditions and requirements, we have expanded our manufacturing capabilities to include a ...

The CME-55 is capable of drilling holes up to 14.75 inches in diameter using conventional or hollow-stem augers. The rig is equipped with a Monyo water ...

CANTERRA CT-350 AUGER DRILL RIG (Ref#2596T) Manufactured 1990, auger has updated hydraulic pump for controls, long tower, 3 winches, including jib winch, sandline ...

1997 AMS 9600 Power Probe Drill Rig Comes with 24" ft of dual tube direct push tooling and a few boxes of 4" liners about 1400 hours on it Has a new auger ...

The MPP Geopower Geotechnical Drill is a versatile machine capable of completing all types of geotechnical drilling and sampling requirements. The Geopower was designed by drillers with ...

The AMS C-Clip Connection uses the same hex design as AMS Quick Connect connections, but replaces the spring-loaded button with a heat-treated pin that can be hammered upon. Please ...

Ams 9600 drill rig auger square coupling

The New 9580-VTR PowerProbe(TM) is powered by a tier 4, 60 HP John Deere liquid-cooled diesel engine, and has an increased diesel fuel storage to 30 ...

View details regarding auger drill rigs for auger drilling, and access the full inventory of auger drill rigs available for sale or rent at Rig Source.

The combination rig on Kubota tractors are compact which extends our capability to support drilling with hollow stem auger and set monitoring wells in smaller areas where overhead ...

AMS PowerProbe direct-push drilling rigs are used primarily for environmental and geotechnical drilling, but can be used in other industries ...

CME - Auger drill rigs and drilling equipment for the geotechnical, environmental, mineral exploration, and construction industries.

Drilling Capabilities: Direct Push, and Solid stem augers Sample Size: 2" Average Depth: +/- 8" Strengths o Able to achieve quality samples from tight or difficult to access locations. o Small ...

Mounted on pick-up trucks, trailers, or tracks, AMS PowerProbe direct-push drill rigs are capable of retrieving soil, soil gas and ground water samples, as well as conducting a wide ...
