

Ams drill rig modifications

What are AMS PowerProbe drill rigs used for?

Mounted on pickup trucks, trailers, UTVs, skid loaders, tractors, or tracks, AMS PowerProbe direct push drill rigs are capable of performing soil, soil gas, and groundwater testing, monitoring, and sampling, as well as conducting a wide variety of geophysical and geotechnical assessments.

Why do AMS drill rigs have a minimum stock level?

AMS maintains minimum stock levels of the most common drill rig configurations to eliminate lead times and better support the drilling industry. All industry standard threads, including BECO, IF, API Reg, DIBH and CUBEX are manufactured using certified gauges. All drill pipes exceed API minimum standards for concentricity.

What size drill pipe does AMS manufacture?

AMS has the capability to manufacture drill pipe ranging in diameter from 88.9mm to 273mm to suit any configuration of drilling rig. In addition, all drill pipe is serial numbered for traceability. AMS maintains minimum stock levels of the most common drill rig configurations to eliminate lead times and better support the drilling industry.

What are AMS powerprobes?

AMS, Inc. PowerProbes feature direct push drilling technology and hollow stem augering capabilities! AMS PowerProbes have gained widespread acceptance in many industries due to their versatility, relatively low cost, and ease of mobility.

What is AMS Direct push tooling?

The versatility of AMS direct push tooling provides investigators with a variety of soil investigation options that are effective in various materials such as sands, gravels, hard pans, high friction clays, tills, fill materials, and surface frost from the ground surface to depths ranging beyond 100 ft. below ground surface, depending on lithology.

Are AMS lifting bails load tested?

The handle has been load tested and certified as a lifting point. AMS has a range of heavy duty steel and light weight aluminium lifting bails to suit BECO and API thread types. All lifting bails contain a swivel to eliminate undoing of the thread on the lifting eye and are load tested and certified to Australian standards.

2009 Honda S2000 Fiberglass+ Kit Body Kit - 2000-2009 Honda S2000 Duraflex AM-S Wide Body Kit - 8 Piece - Includes AMS Wide Body Front Bumper Cover (106023) AMS Wide Body ...

9580-VTR Drillers seeking an extremely powerful direct push rig with rotary drilling and direct push sampling choose the 9580-VTR. The drilling and hammer system has hydraulic pivot and ...

Ams drill rig modifications

Equipped with a 90ft/lb. hydraulic hammer capable for direct push drilling and probing. The rig is also equipped with a winch line capable of lifting 2500lbs, ...

Drill Pipe AMS offers custom made drill pipe, drill and adapter subs, deck bushing, breakout baskets and lifters to suit all drill configurations. AMS supplies a complete line of quality drill ...

2008 Honda S2000 Fiberglass+ Kit Body Kit - 2000-2009 Honda S2000 Duraflex AM-S Wide Body Kit - 8 Piece - Includes AMS Wide Body Front Bumper Cover (106023) AMS Wide Body ...

AMS PowerProbe direct-push drilling rigs are used primarily for environmental and geotechnical drilling, but can be used in other industries ...

AMS Inc.'s PowerProbes are versatile direct-push drilling rigs that have the capabilities to install tools or wells for remedial injections and installing ...

Save space with this awesome, low profile modification for the AMS Lite for the Bambu Lab A1 Mini! The AMS Lite is a fantastic piece of hardware, but lets be honest: it sort of ...

AMS Engineering is committed to providing world-class solutions in Drilling and Piping Inspection Services. With a focus on precision, safety, and reliability, we deliver a complete suite of ...

Visit the AMS Bobcat Website Horizontal Directional Drilling Specialist Contractors Installation of underground pipe and duct without the need for open cut Visit the AMS No-Dig Website ...

AMS is a mining construction company who offers a wide variety of mining services from rehabilitation to sealing, with a commitment to quality and safety.

KHAN provides a comprehensive range of Rig-related services, including rig refurbishment, Rig reconfiguration, Rig design, Rig assembly and testing, and ...

AMS" extensive range of lengths, diameters, tool joint and thread configurations allows for individual customisation of drill and adapter subs to suit all of our client"s requirements.

AMS CORE AMS LIFTER LIFTER CASES CASES Australasian Mining Services in conjunction with manufactures have developed core lifters and core lifter cases to suit various formations ...

The 9520-VTR PowerProbe is a versatile direct-push drill rig that can be used in most environmental and geotechnical applications. This all ...

The addition of a Powerprobe 9700 VTR PRO to our inventory of drill rigs has made us more versatile in

Ams drill rig modifications

serving our customers needs. The track mounted ...

The 9570-VTR PowerProbe is a versatile drill rig that can be used in most environmental and geotechnical applications. It features a Tier-4 ...

Our geotechnical sampling and testing tools support engineers and scientists in accurately assessing the physical properties of soil, rock, and other materials.

o Powerful drilling rig. o Improved fuel economy and emissions. The 9520-Diesel (D) is ideal for road or parking lot job sites where extensive travel is required. o Convenient mobilization. o ...

Sampling & Testing Tools Ever since 1942, we have been a leader in manufacturing soil sampling equipment for agricultural, geotechnical, ...

AMS maintains minimum stock levels of the most common drill rig configurations to eliminate lead times and better support the drilling industry. All industry standard threads, including BECO, ...
