

Apex 1500 drilling rig

Why should you choose apex rigs?

Our diverse fleet of APEX rigs offers our customers versatility, engineered to set the performance standard of drilling, exemplifying efficiency in all environments. Seamlessly integrating advanced technologies, we revolutionize drilling operations by optimizing precision and reducing human intervention.

How does the apex-XK 1500 rig work?

From the dedicated shipping skid for the mast, to the unified skids for the solids control equipment, the APEX-XK 1500 rig was designed to improve move times between locations. With the top drive and block remaining in the mast during transit, the hydraulic cylinders raise (and lower) the mast during rig up operations.

How much will Precision Drilling spend on a capex project?

Precision Drilling said in August that it would reign in its 2019 capex plan to about \$144 million, down \$25 million from its previously stated budget of \$169 million, following the completion of a newbuild project for Kuwait.

How much does a super spec Driller cost?

The driller holds about a 40% market share on the super spec with about 230 rigs. It also boasts that it has the most upgradeable rigs available at the lowest cost. Management told investors in May that upgrades to a skidding super-spec rig would cost between \$2 million and \$3 million each.

Which rig is suitable for perpendicular or parallel rig up orientations?

The APEX-XK 1500 rig is suitable for perpendicular or parallel rig up orientations. From the dedicated shipping skid for the mast, to the unified skids for the solids control equipment, the APEX-XK 1500 rig was designed to improve move times between locations.

What is a zj50/3150d/db rig?

Model ZJ50/3150D/DB and ZJ50/3150D/DB, 1500HP, electrical onshore drilling rig, designed to drill and complete an oil and gas well with a depth of not more than 5000m. The rig components such as mast, substructure, traveling block, hook, swivel, rotary table, drawworks, etc, conform to API specifications and the industry standards.

US deep-water drilling contractor Diamond Offshore has delivered its semi-submersible Ocean Apex to Australia for assignments with multiple ...

Andy Hendricks, chief executive of Patterson, a tall man with graying hair, stood in a white hard hat and dark coveralls at the foot of the ...

Apex 1500 drilling rig

Global drilling contractor Noble has secured a new contract in Australia for one of the oldest rigs in its fleet. Noble said its semi-submersible Ocean Apex has been contracted ...

Portable drilling rigs are specialized equipment designed for easy transport and operation in hard-to-reach locations or areas with space constraints. These rigs are equipped with compact and ...

An APEX 1500 rig operates in the Permian Basin, which is characterized by stacked plays and is transitioning from vertical to horizontal wells. Despite continued flat ...
