What does apex do?

Then Driven by customer satisfaction, Apex engineers innovative production equipment, automation, and manufacturing services for a wide range of industries, such as Oil & Gas, Renewable Energy, Foundry, Construction and Railroad.

Why should you choose apex drill steel?

From our fast and durable core bits to drilling fluids, we'll ensure you get the productive and profitable hole TD you need. Apex downhole wireline tooling reduces nonproductive time (NPT) while minimizing risk and problems associated with diamond core exploration drilling. All Apex drill steel is made according to the strictest quality standards.

How does the apex-XK 1500 rig work?

From the dedicated shipping skid for the mast, to the unified skids for the solids control equipment, the APEX-XK 1500 rig was designed to improve move times between locations. With the top drive and block remaining in the mast during transit, the hydraulic cylinders raise (and lower) the mast during rig up operations.

Where are drilling rigs made?

Most new onshore rigs, both drilling and work over rigs, are built by OEMs in China. In the US, the larger vertically integrated land drillers have in-house manufacturing operations, so they will outsource some equipment construction, but assemble the new rigs at their own facilities.

We offer a wide range of equipment tailored to construction, mining, exploration, geology, and related industries, including drilling rigs, excavators, sampling tools, and environmental ...

Apex Drilling Services provides specialist drilling services throughout the UK including geothermal, water wells, contamination drilling, coal bed methane ...

Apex drilling rig suppliers

Republic Drill co. leads the water well, mining, and geothermal drilling industries in people, product and service across the nation. Together, we are drilling the future.
