

Apex drilling rig

Who is apex drilling?

Apex is a global organization of seasoned drilling experts. We take pride in our products and the optimized performance they bring drillers. Don't waste your money drilling with products run and supplied by "bit salesman"; DRILL WITH APEX to balance your drilling objectives with your economic reality.

Why should you choose apex's rigs?

Our diverse fleet of APEX's rigs offers our customers versatility, engineered to set the performance standard of drilling, exemplifying efficiency in all environments. Seamlessly integrating advanced technologies, we revolutionize drilling operations by optimizing precision and reducing human intervention.

What is the apex65 RC exploration drilling rig?

Foremost announces a brand new RC Exploration Drilling Rig that will be added to our exploration equipment product line-up in 2021, the Apex65. The Apex 65 features a proprietary feed system that reduces maintenance costs, increases safety, and improves performance.

Who owns the ocean apex rig?

The Ocean Apex is currently working for Santos until May 2025 when Chevron takes over until July 2025. Noble inherited the Ocean Apex when it acquired Diamond Offshore; the rig was previously called Ocean Bounty, originally built in 1976. It is an Enhanced Victory design built for operations in water depths up to 6000 feet.

Why should you choose apex drill steel?

From our fast and durable core bits to drilling fluids, we'll ensure you get the productive and profitable hole TD you need. Apex downhole wireline tooling reduces nonproductive time (NPT) while minimizing risk and problems associated with diamond core exploration drilling. All Apex drill steel is made according to the strictest quality standards.

How does the apex-XK 1500's rig work?

From the dedicated shipping skid for the mast, to the unified skids for the solids control equipment, the APEX-XK 1500's rig was designed to improve move times between locations. With the top drive and block remaining in the mast during transit, the hydraulic cylinders raise (and lower) the mast during rig up operations.

Explore our specialized rod rigs designed for efficient oilfield rod operations. Our state-of-the-art equipment, including mechanical and digital counters, ensures accuracy and reliability.

Experience the future of drilling with Patterson-UTI Drilling's APEX's XC+ rig. With its 1-million-pound centerpiece and 35,000" racking capacity, the APEX XC+ rig provides customers the ...

Apex drilling rig
