

Ardco drill rigs

What types of drilling rigs does ARDCO offer?

Geophysical, geothermal and geotechnical drilling. Whatever the application, ARDCO has the drill rig of choice. Don't let water supply slow down your drilling operation. Keep water flowing to the jobsite with the ARDCO water tank. Never worry about refueling equipment again. The fuel tank model gets fuel where you need it -- when you need it.

What is an ARDCO SD350 rig?

The ARDCO SD350 is a skid mounted, vane-style water rotary drill rig. It is powered by hydraulic pumps driven by auxiliary power or truck engine and is ideal for seismic drilling on land up to 350 feet (107 meters) deep. The SD350 can be mounted on an ARDCO 4x4, on-road truck, or rubber tracked crawler.

What is an ARDCO top drive rotary?

An ARDCO top drive rotary is a heavy-duty, vane style unit equipped with a roller bearing guide assembly. It is designed for use with a saver sub and travels up and down by chain and sprocket.

Can an ARDCO 4x4 support the mounting of an SD350?

The SD350 can be mounted on an ARDCO 4x4, on-road truck, or rubber tracked crawler. The welded tubular steel mast is raised and lowered by dual hydraulic cylinders with a mechanical lock mechanism.
