

Atlas copco face drilling rigs

Where can I buy Atlas Copco drill rigs?

Atlas Copco drill rigs are known for their performance and stability in the industry. Venture Drilling Supply sells Atlas Copco drill rigs as well as Atlas Copco drill rig accessories and parts.

Which drill does Atlas Copco use?

Atlas Copco uses the COP 2238 hydraulic rock drill for the 51- to 76- mm hole diameter range and the COP 1240 DTH rock drill for surface mining and quarrying. Atlas Copco also introduced new DTH hammers for deep-hole and waterwell drilling earlier this year.

What is Atlas Copco rock drills spare parts?

Atlas Copco Rock Drills Spare Parts is a spare parts catalog with instructions and diagrams. Atlas Copco has progressively built an enviable reputation in the drilling industry. Except for mining equipment, this Swedish company develops and produces industrial tools, air compressors, mining and construction machinery.

Atlas Copco Face Drilling Rigs Technical specification Rocket Boomer®; WE3 C30 Three boom hydraulic face drilling rig with wide reach boom console, computer controlled drilling system, ...

Three boom hydraulic tunnelling rig with an advanced Rig Control System, COP 3038 rock drills and heavy-duty BUT 45 booms for superior productivity.

Epiroc's rugged face drilling rigs are built for blast hole drilling in underground mining and tunneling. Choose your model of jumbo here and read more!

Hydraulically controlled mining and tunnelling face drilling rig with two BUT 28 booms. Available with a variety of rock drills to suit customer requirements.

Three boom hydraulic tunnelling rig with high reach console, an advanced Rig Control System, COP 1838 or COP 2238 rock drills and heavy-duty BUT 45 booms for superior productivity.

Atlas Copco's face drilling rigs are renowned for their robust construction, advanced technology, and efficiency. This blog post provides a comprehensive overview of their technical ...

Standard features Rock drill COP 1638, COP 1838 or COP 2238 rock drill with dual-damping system for optimal consumable life Pressurized housing and mating surfaces to reduce ...

Boomer S1 D is a modern single-boom, hydraulic face drilling rig which is used in small drifts and tunnels. A direct control system (DCS) is provided in the rig. ...

Atlas copco face drilling rigs

The "All Star" two-boom rig Boomer 282 is a world popular face drilling rig installed with two robust BUT booms and available with a variety of rock drills. Stable and highly efficient performance ...

Boomer S1 L is a low-profile hydraulic face drilling rig suitable for small drifts and tunnels with cross sections up to 29 m². The BUT 28 boom allows for fast, ...

Atlas Copco offers the Boomer M2 D face drilling rig which is suitable for use in mine production and small to medium sized tunnels. A reliable and robust direct control system (DCS) is ...

UNDERGROUND DRILL RIGS Hydraulically controlled mining and tunnelling face drilling rig with two BUT 28 booms. Available with a variety of rock drills to suit customer requirements.

A giant of high penetration Boomer XL3 D is a high efficient three-boom pilot-hydraulic controlled face drill-ing rig, fulfilling all range large site underground applications with high productiv-ity ...

Boomer S1 D-DH Equipped with COP 1638 or COP 1838ME rock drill Coverage area up to 31 m² draulic mining and tunnelling face drilling rig with one BUT 29 boom.

All Atlas Copco products are engineered to integrate seamlessly, ensuring the highest level of reliability and energy efficiency. As a result, Atlas Copco can ...

The Boomer 282 available from Atlas Copco is a twin-boom hydraulic face drilling rig designed for small to medium sized tunnels and for mine production with ...

Standard computer control-led automatic functions in the drilling system include soft collaring and anti-jamming protection as well as continuous regulation of the rock drill and provide high ...

The Boomer E3 (model names XE3 and WE3) is a hydraulic face drilling rigs for medium to large drifts and tunnels with cross sections up to 198 m². Even in the toughest rock conditions, ...

Direct controlled hydraulic tunnelling and mining rig with one BUT 4B boom and either a COP 1638 or a COP 1838ME rock drill for drilling narrow tunnel cross sections.

Two boom hydraulic tunnelling and mining rig with an advanced Rig Control System for high accuracy and productivity. Available with a variety of rock drills to suit customer requirements.

Hydraulically controlled mining and tunnelling face drilling rig with two BUT 35 SL booms. Available with a variety of rock drills to suit customer requirements.

The Boomer XL3 D is a modern hydraulic face-drilling rig for large sized tunnels and mine production with cross sections up to 178 m². The rig is equipped ...

Atlas copco face drilling rigs

Atlas Copco Face drilling rigs Technical specification Boomer 104 Equipped with a COP 1638 or COP 1838ME rock drill BOOMER ROCKET 104 BOOMER104 Direct controlled hydraulic ...

Hydraulically controlled mining and tunnelling face drilling rig with two BUT 35 booms. Available with a variety of rock drills to suit customer requirements.

UNDERGROUND DRILL RIGS Hydraulically controlled mining and tunnelling face drilling rig with one BUT 4B boom. Available with a variety of rock drills to suit customer requirements.

Hydraulically controlled mining and tunnelling face drilling rig with one BUT 4B boom. Available with a variety of rock drills to suit customer requirements.

Used Atlas-Copco drilling rigs for sale in New York, USA. CS-1000, DM30, RD20 III, and CT 14. Find drill rigs, oil and gas equipment on Machinio.

Hydraulically controlled mining and tunnelling face drilling rig for low-profile applications. Equipped with one BUT 28 SL boom. Available with a variety of rock drills to suit customer requirements.

Atlas Copco has introduced an advanced hydraulic face drilling rig called Boomer E2 C which is ideal for large- to medium-sized tunnels and drifts having cross ...

Boomer M20 - the world's first face drill rig with internal hydraulics With protected hydraulics, sensors and cables, Epiroc's new Boomer M20 is designed and built to minimize unplanned ...
