

Automated drill rig

Nabors Industries Ltd. (NYSE: NBR), a leading provider of advanced technology for the global energy industry, today announced its PACE-R801 - the world's first fully automated land ...

HOUSTON, August 17, 2021-- Schlumberger announced today the introduction of Autonomous Directional Drilling, which includes solutions to steer autonomously through any section of the ...

The Next Step: Autonomous Drilling The next chapter in autonomous drilling will look beyond automated drilling sequences. The new ...

Provides automated drilling rigs and services, including their ADR(TM) (Automated Drill Rigs), designed to improve safety and efficiency. ...

Automated drilling has revolutionized the mining and construction industries by streamlining the drilling process and increasing efficiency. With ...

Autonomous drilling has seen notable uptake, driven by safety and productivity gains and ongoing innovation from OEMs, while blasting is much earlier in its automation journey.

Consistent well delivery LOGIX(TM) drilling performance offers an integrated autonomous drilling solution that drills smart wells consistently, with accurate ...

It will be able to control more rig systems--fluids, drilling, geosteering--imultaneously. AutoROP is the DrillOps Automate optimized ...

As global energy industries undergo digitalization, automated drilling rigs have emerged as key players of a smart oilfield revolution. These ...

Nabors' fully automated PACE-R801 rig drilled nine wells for ExxonMobil as part of a pilot project that was completed this year. The rig ...

Its robust design offers double the lifespan compared to industry standard solutions, making it suitable for various drilling conditions. It combines durability with precise hole accuracy, ...

Computer-controlled drilling is slowly changing how the oil and gas industry discovers natural resources. Automated drilling can reduce the number of injuries to zero and ...

In an industry first for a land drilling rig, ExxonMobil XOM 0.0% subsidiary XTO Energy and Nabors

Automated drill rig

Drilling have reached total depth on the ...

Leading the industry in rig automation, our control systems seamlessly integrate drilling equipment, improve performance, and boost drilling efficiency.

6 days ago· R& D Technical Section Q& A: Drilling Automation--People, Process, and the Rise of Smart Rigs This article is the fourth in a Q& A series from the SPE Research and Development ...

Nabors Industries Ltd. has announced its PACE ® -R801 - the world's first fully automated land drilling rig - has reached total depth on its ...

This article aims to provide an overview of research trends and state-of-the-art technologies in face exploration and drilling operations in order ...

Discover our high-quality self-feeding drills and drilling equipment for industrial production. Learn about our product lines, custom solutions, and services.

Advanced camera system for rig surveillance and failure detection. With multiple screens, touchscreens, and joystick controls, the Precise system enables full ...

Drilling the Bakken Formation in the Williston Basin Large hole drilling rig for blast-hole drilling A drilling rig is an integrated system that drills wells, such as oil or water wells, or holes for piling ...

Discover how LOGIX® autonomous drilling platform integrated with geosteering software provides insight and recommendations to successfully land the well.
