

Badger drill rig

What does Badger infrastructure solutions do?

Minimize Project Risk. Infrastructure Locating, Data Collection & Mapping. Badger Infrastructure Solutions began locating and mapping underground infrastructure in June 2020.

Why should you use Badger locating solutions?

Badger Locating Solutions combined with Badger's industry leading hydro-excavation platform provides clients a complete damage prevention resource. A data-driven decision on where and how to excavate prevents costly damage to underground infrastructure. We do more than just mark the surface!

When did Badger infrastructure solutions start locating and mapping underground infrastructure?

Badger Infrastructure Solutions began locating and mapping underground infrastructure in June 2020. Our Locate Technicians are trained and evaluated on locating-based competencies with a steadfast perspective that the best way to prevent damages to underground infrastructure is to give excavators accurate information.

Why should you use Badger?

A data-driven decision on where and how to excavate prevents costly damage to underground infrastructure. We do more than just mark the surface! Excavators can now dig with confidence, knowing that Badger confirms the quality and accuracy of locates by integrating precise GPS data and locating meta-data.
