

Baoding Water Well Drilling Rig

What is a water well drilling rig?

Water well drilling rigs are a series of machines for developing groundwater that people can use the drilling technology to extract groundwater to supplement the water demand of people's daily life and production.

What are the techniques for drilling offshore wells from floating rigs?

The techniques for drilling offshore wells from floating rigs are basically the same as those used for onshore wells. In general, the factors involved in drilling wells from floating rigs are due to the following: the submarine BOPs are located on the subsea wellhead and are controlled hydraulically or electrically from the surface;
