

Blasthole drilling rigs

This blasthole drills adopt constant power variable electro-hydraulic proportional control system, achieving automatic adjusting of drilling parameters to match ground conditions and rock ...

Hardrock Blast hole drilling rig is used most frequently in the mineral exploration industry among all the mining drilling equipment. This blasting rig is penetrating the rock via a air driven ...

Blast hole Drilling is a technique used in mining whereby a hole is drilled into the surface of the rock, packed with explosive material, and detonated. The aim of this technique is to induce ...

Sandvik DR416i blasthole drill rig delivers a single-pass capacity of 21 meters (69 ft), the longest in its class along with a maximum depth of 42.4 meters (139ft) across all recommended pipe ...

Explore what blast hole drill rigs are, how they work, and why they're essential in mining operations. A simple guide to the machines ...

Keystone Drill is a distributor and manufacturer of rotary drills and drill rigs for the oil and gas field, construction field and mining field.

Epiroc offers the most comprehensive line of rotary blast hole drilling rigs in the industry. With a multitude of configurations to choose from you can find the ...

TAIYE is a rotary drilling rig manufacturer of specially designed rotary blasthole drilling rigs for high-step large blasthole drilling in large quarries and open-pit mines. It has extremely high ...

Sandvik D45KS drills holes down to a maximum depth of 63 meters (206.69 ft) and is designed for coal, gold and iron ore mining. It prioritizes easy ...

Discover powerful blast hole drills at Ritchie List, essential for efficient, precise, and deep drilling in mining operations. Browse our quality used range today!

Epiroc's drilling rigs offer a variety of feed lengths, positioning configurations, rock drills, and optional automated features for underground production drilling and ...

SWDRT200B Diesel rotary blasthole drill rig (DTH and rotary drilling) The SWDRT series is rotary blast-hole drill rigs with high axial pressure, high torque, high rotation speed, large hole ...

Sandvik DR416i blasthole drill rig delivers a single-pass capacity of 21 meters (69 ft), the longest in its class

Blasthole drilling rigs

along with a maximum depth of 42.4 meters (139ft) ...

In the world of drilling rigs, with so many types and styles, it's easy to get lost! Bohrmeister takes a look at blast hole rigs and how they operate here...

Buy and sell unused and used Blast Hole Drills at IronPlanet. Blast Hole Drills are a type of heavy equipment machinery that is commonly used around the construction and mining industries.

Riggers International is a growing Manufacturer and Supplier of wide range of drilling equipments including Drilling Rigs, trucks, hydraulic spares which are ...

Blast Hole Drills for Sale Buy and sell unused and used Blast Hole Drills at IronPlanet. Blast Hole Drills are a type of heavy equipment machinery that is commonly used around the construction ...

Rotary blasthole drill rigs DR411iE Hole diameter 171.00 - 270.00 mm (6.75 - 10.63 in.) Weight on bit Up to 36,287 kg (80,000 lbs) Single pass hole depth Up to 16.80 m (55.00 ft)

Our blasthole drilling team is a well-trained, highly-experienced drill crew, and our in-house maintenance program ensures all rigs operate to the highest ...

A blasthole drilling rig is a specialized piece of equipment used primarily in mining and construction industries to drill holes for explosives. These rigs are ...

Drilling Supply blast-hole drilling rigs are designed to suit all your drilling needs ranging from civil and construction Blast Hole Drill Rig works to heavy-duty ...

As a leading supplier of rock excavation equipment for more than 145 years, we have gained considerable experience and knowledge of mining techniques ...

The ZT44 blasthole drill adds exceptional versatility to your operation with a compact form that is designed for efficient drilling in tight spaces, while still providing the production capacity of ...
