Did a man die from an oil rig explosion & fire?

November 14, 2017 - A man was seriously hurt in an oil rig explosion & fire in White County, and later died from his injuries. In September, 1941, a nine-hour conflagration at the Whiting Standard of Indiana refinery killed one man and injured 20 others.

How dangerous is drilling for oil?

Drilling for oil is an incredibly dangerous undertaking, and when the death toll is as high as it is, it's hard to fathom the number of non-fatal injuries inflicted on offshore and onshore workers. We often hear just of the death tolls, without giving much thought to the countless men and women who received life-altering injuries.
