

Cameron parish la drilling rigs

Is Chevron drilling in Cameron Parish?

Chevron is drilling in Cameron Parish. One of the world's largest oil companies is continuing a historic onshore drilling project in this area. In January, the Louisiana Department of Natural Resources announced that Chevron and Stone Energy, which is based in Lafayette, were drilling in Cameron Parish with depths never allowed in the Bayou State before.

What is the size of the oil rigs in Louisiana?

Since 2009, onshore Louisiana wells have been drilled between 18,000 and 20,000 feet. The largest land rig in the world, owned by the Unit Drilling Company of Oklahoma, was brought down from Wyoming to Louisiana by Chevron. This rig is of significant size.

What is the name or type of Chevron's rig?

Chevron operates Rig No. 201, a 200-foot-tall rig with a 40,000-foot design capability. The U.S. Secretary of Energy personally traveled to Oklahoma to dedicate this rig when it was built in 1981.

What happened in the northern parishes of Baton Rouge?

The major discoveries in the northern parishes set off a boom in the early decades of the century. Much of the oil produced from the northern fields had access to the state's largest pipeline system and refinery, owned by Standard Oil in Baton Rouge. Within a few years, the majority of these northern fields played out.
