

Capable diamond drill rig

2000m Diamond Core Drilling Rig is compact with moderate dimensions and high technical specification. The rig can be either crawler or truck mounted.

Our team has designed a wide range of support diamond drilling equipment to meet any mine site requirements and provide efficient solutions on any terrain. ...

Equipped with 7 diamond drilling rigs, the company provides diamond core drilling with industry standard core sizes of PQ, HQ, NQ and BQ. The rigs are ...

A diamond drill remains the best "truth machine" for asserting the geological structure, grade and tonnage of deposits. Full Force Drilling is devoted to ...

3000m truck mounted Diamond Core Drilling Rig is compact with moderate dimensions and high technical specification. The rig can be either crawler or ...

Major Drilling is taking delivery of several new drill rigs including Smart 6, Smart 8 and U600 underground models as part of its fleet update strategy. As mining companies from all tiers ...

Drilling rig capable of both diamond and reverse circulation drilling. Exploration diamond drilling is used in the mining industry to probe the contents of known ...

The drill bit itself is made from high-quality diamond, ensuring that it is both durable and able to cut through even the toughest materials. The Backpack Exploration Core Drill Rig is also ...

1000m Diamond Core Drilling Rig is compact with moderate dimensions and high technical specification. The rig can be either crawler or truck mounted.

Energold operates a fleet of underground diamond drilling rigs in support of mine exploration and production programs. Our fleet comprises both Energold Ranger and Multipower rigs, ...

#Drilling Rig# Water Well Drilling Rig Water well drilling rig he high-torque rotary head, engineered to deliver rotational force capable of grinding through the toughest geological formations. Constructed from heat-treated alloy steel and reinforced gear systems, it generates torque outputs ...

Designed to complete the most remote of drilling programs, our heli-portable drill division is perfect for your next exploration or geotechnical program. Our heli-portable drill rigs have been ...

Capable diamond drill rig

Energold Drilling is a leading global drilling solutions company that primarily services the mining industry in the Americas, Africa, and Europe. Internationally recognized for our social and ...

CAPABLE Our operators have executed drill campaigns ranging from underground directional drilling with tight deviation targets, deep drilling, triple ...

RIG 6: TRACK MOUNTED DIAMOND RIG - Boart Longyear LF 90D This LF90D Drill rig was purchased new in 2008. It has worked in various regions of WA and the Northern Territory. ...

PRD CORE 1500 is a miner's top choice for hydrostatic surface core drilling, utilizing the diamond core drilling method with a water-flushing medium. This rig boasts a remarkable drilling ...

Diamond Drilling is a specialised drilling technique used to create precise holes in hard materials such as concrete, rock, and other materials. The process ...

Providing reliable, high-performance deep hole drilling with economical maintenance costs, our LM(TM) Modular Diamond Drill System is used extensively all over the world under varying ...

RIG 2 IS A MULTIPURPOSE MACHINE capable of diamond, RC and rotary drilling. This versatile unit is road registered and mounted on a Tatra 8 x 8 carrier, which allows it to tackle the most ...

You need underground diamond core drilling solutions for both shallow and deep hole, small and large diameter core, including wireline and conventional.
