

Central Africa Water Well Drilling Rig Customization Hotline

What is Africa based drilling?

Our African based operations support the continents goals of extraction of minerals by providing safe and highly-efficient drilling services. We are a leader specifically in East and Central Africa, where we operate one of the largest and most advanced rig (diamond, RC, RAB) fleet and support services.

What types of drilling rigs are available?

depending on purpose and penetrated formation, as well as availability of local rigs: AFRICAN WATER expertise covers direct rotary drilling, reverse rotary drilling, DTH-hammer drilling, foam drilling, core drilling.

Who is Titan drilling?

Titan Drilling International Ltd provides comprehensive exploration, resource definition and production drilling solutions to clients throughout Central and Southern Africa. We pride ourselves on being African drilling specialists, offering turn-key drilling solutions while maintaining uncompromising safety standards.

What is RC drilling?

It is it is mainly used in the mining industry to probe the contents of known ore deposits and also potential sites. RC drilling is similar to air core drilling, in that the drill cuttings are returned to the surface inside the rods. The drilling mechanism is a pneumatic reciprocating piston known as a "hammer" driving a tungsten-steel drill bit.

With the growing global demand for clean drinking water, the water well Drilling Rig market continues to thrive, especially in emerging economies like Africa and Southeast Asia. As a ...

New high-performance machine for custom drilling .-Platform type: Portable Diesel Hydraulic Water Well Drilling Rig YES100D-perforation water range: 110 mm -...

For the best all terrain drill rigs for Water well drilling, Foundation piling, Exploration drilling and Opencast mining machines and drilling equipment, Please contact us for any information or a ...
