

Challenger drilling rig

What size drill pipe does Challenger international supply?

Challenger International supplies both new and used drill pipe, sizes 2.375" through 7-5/8" from various manufacturers. Challenger International supplies both integral and welded heavy weight drill pipe. Challenger International offers various shapes and sizes of drill collars in stock to API specifications and QC inspected.

Which R/C drill rigs are operated by challenge drilling?

Challenge Drilling operates three R/C drill rigs, all of which are KWL350's.

What is a drill rig?

In the simplest terms, a drill rig, also called a "drilling rig" or just "rig," is a machine or equipment that's used to create holes, or "wellbores," in the earth's surface in order to drill for oil, natural gas, water, or other resources.

What are the different types of offshore drill rigs?

Different types of offshore drill rigs can include barge, jack up, semi-submersible, and deep water rigs. Leading manufacturers of new and used drill rigs include Bucyrus-Erie, Gardner-Denver, Ingersoll-Rand, National Oilwell Varco (NOV), Schramm, and SJ Petro.

What is the difference between an offshore drill rig and an offshore rig?

Conversely, offshore rigs are generally more permanent structures, although some offshore drill rigs entail a floating platform that integrates all the other components of the drill operation, including various equipment and tools, living quarters, and means for storage and transportation.
