

Cme 55 drill rig specs

What is the difference between CME 55 & CME 75 drill rigs?

The CME 55 can be mounted to various styles of trucks or crawler carriers and can be offered under different name variances based on the selected mount such as CME 550 or CME 550X. The CME 75 drill rig is one of CME's larger drill rigs. This unit is known for conquering larger jobs requiring deeper drilling depths or bigger augers.

What is a CME drilling rig?

CME drilling rigs are mechanically driven multi-purpose machines with an emphasis on auger drilling. They are custom designed to accommodate the drilling needs and preferences of the end user. Each machine can be mounted on skids, trailers, trucks, rubber tracks, or rubber tire ATV carriers.

What type of truck is a CME 55 mounted on?

This CME 55 is mounted on an International Durastar Crew Cab 4*4 truck. Our versatile CME 55 truck mount is capable of drilling with solid stem and hollow stem augers and can be equipped for rock coring, tri-coning, and wash boring. It is equipped with an automatic hammer for quick & accurate SPT sampling.

What engine does a Cummins CME 55 use?

Offered in TRACK mounted. The CME 55 is powered by a Cummins QSF 3.8 turbocharged 4-cylinder diesel engine and equipped with a cold start assist, it makes getting the rig started in the Canadian winter a breeze.

What size slide base does a cme-55/300 track drill use?

Both in-out and sideways slide bases are standard equipment on the CME-55/300 track drill. An 18 inch (45.7 cm) in-out movement allows you to quickly move the drill on and off the borehole and align the sheaves for lifting tools with the cathead or any of the hoists. A 6 inch (15.2 cm) sideways movement gives you even more versatility.

What kind of engine does a cme-55/300 use?

A Cummins QSF 3.8 (232 cubic inch) turbocharged 4-cylinder diesel engine provides plenty of power for the CME-55/300 drill and track carrier. Cold weather starting aid and engine protection shutdown systems are standard features. Both in-out and sideways slide bases are standard equipment on the CME-55/300 track drill.
