

Cme 750 drill rig

What is a CME 75 drill rig?

The CME 75 drill rig is one of CME's larger drill rigs. This unit is known for conquering larger jobs requiring deeper drilling depths or bigger augers. The CME 75 can be truck or track-mounted and also gives the option for enhancing rotation and power. Common variances of the CME 75 include CME 75HT, CME 750, and CME 750X.

What is a CME drill rig?

Central Mine Equipment Company (CME) offers competitive geotechnical and environmental drill rigs that uphold a strong reputation for being powerful, dependable, and versatile. They are mounted on trucks, all-terrain rubber-tire carriers, track carriers with steel grousers or rubber cleats, or on skids or trailers.

What are the differences between CME 75 and CME 750?

Common variances of the CME 75 include CME 75HT, CME 750, and CME 750X. Several features are seen in all CME models, however, estimations may change based on the drilling conditions: Patented Automatic SPT Hammer: This 140 lb. automatic hammer system provides precise and reliable results for the Standard Penetration Test.

What is a CME 75?

The CME 75 can be truck or track-mounted and also gives the option for enhancing rotation and power. Common variances of the CME 75 include CME 75HT, CME 750, and CME 750X. Several features are seen in all CME models, however, estimations may change based on the drilling conditions:

What kind of engine does a 1997 CME 75 have?

This 1997 CME 75 Vertical Drill is equipped with a Ford four cylinder gas engine. Other features include (2) augers: 6" diameter, 10" diameter, (2) stabilizers, a shop built trailer: 13'L x 93"W, Tires: 7.50-20, and an unknown operating condition.
