

Coastal drilling rig 20 specs

What is a rd20iii drilling rig?

The RD20III is a unique deephole drilling rig designed for applications in the 120,000 lb. (54,446 kg) range. The heart of the RD20III is the patented carriage feed system. This feed system, plus the derrick structure, provide several customer advantages that previously have not been available on machines in this class.

How does the rd20 drill work?

The RD20 is available with optional CEMARK/ATEX Certification Package separate of the drilling apparatus. The rotary head is pulled up and down by two hydraulic cylinders, heavy-duty cables and a carriage assembly. Manually engaged regen is standard equipment.

What is the difference between a rd20iii and a competitive rig?

Whereas competitive rigs require a longer, larger derrick to support 120,000 lb./54,446 kg of pullback, the RD20III is designed with no fixed crown on the derrick, and carriage feed cables anchored in the derrick so that only the lower half of the derrick experiences any pulldown or pullback loads.

What equipment do you need for a rig?

Mast height: Max. static load: Inclination angle: 3°; Traveling system: 5'6 Height, racking board (to rig floor): 17.2m Capacity, racking board: 4.5 Qty. 1 EA. Lightning rod 5. TRAVELING EQUIPMENT 5.1 Qty. 1 EA. Traveling hook 5.2 Qty. 1 EA. Swivel 5.3 Qty. 1 EA. Elevator link 6. ROTARY EQUIPMENT 6.1 Qty. 1 EA. Rotary drive unit

What's included in a 50Hz rig?

Explosion proof: acc. to API standard (RP 500B). 50Hz Includes all the control devices and cables of AC equipments. The ground cables from MCC to solid control system and the ground cables from MCC to main rig area will be equipped with groove, used for protecting the cables.

This document provides an equipment list for a land drilling rig, including specifications for the mast and substructure, drawworks, hoisting equipment, ...

Found Coastal Drilling's Rig 22 in the Atchafalaya basin. This is one of the largest inland floating drilling barges ever. Capable of drilling over 30,000 ft. The last time this Rig was in this area ...

This document provides an equipment list for a land drilling rig, including specifications for the mast and substructure, drawworks, hoisting equipment, rotary system, power supply systems, ...

The tank is equipped with an alarm for mud level. One set of SB3"4"9" metering pump is installed on tank end. Trip compartment has a mud gun. One 55KW supply pump is fixed at ...
