

Comacchio drill rig safety

The eGEO 405 is the first fully electric Comacchio machine, the first in the world specifically designed for soil investigations and environmental drilling. This ...

In line with our commitment to highest quality and safety, we have invested a lot of time and resources in the development of safety guards that can fit the many different drill rig models ...

COMACCHIO, a world-renowned designer and manufacturer of drilling rigs, celebrated for its innovative spirit and commitment to excellence. Founded in 1986 and still family-run, ...

The MC 22A is the new MC 22 drill rig version featuring the innovative hydraulic rod & casing carousel. The machine is completely remote controlled, thanks to ...

The Comacchio CX line of exploration drilling rigs includes four truck-mounted rigs that range from lightweight compact units installable on small 4x4 trucks, ...

Known for their efficiency and reliability in drilling operations, the Comacchio CH 650 multipurpose drilling rig and Comacchio MC 8D were the perfect choice for this project. ...

The Comacchio GEO305 rotary drilling rig is capable of carrying out numerous drilling techniques, whilst still being light weight and compact, thus making it a very versatile and cost effective rig. ...

Comacchio's industry advancing exploration rig: Comacchio's exploration rigs are setting new standards in the mining industry in terms of safety and operational efficiency.

Depending on the drill-rig size and its load capacity, Comacchio is offering different types of automatic rod/casing-handling devices, which can either be installed on the drill rig itself (rod ...

CH 450 The CH 450 is the first Comacchio drilling rig for large diameter drilling. The CH 450 is the ideal solution for job sites that require fast operating times. The machine is totally self-erecting, ...

The CXT 15 rigs offer a powerful yet compact solution for exploration drilling, ideal for large-scale projects in remote and challenging environments.

The rig can be outfitted with a wide range of accessories that enhance drilling efficiency, streamline rod recovery, and support effective treatment of waste drilling fluids. The GEO 700 ...

Comacchio then explains that the design and construction of exploration drill rigs must, therefore, consider all

Comacchio drill rig safety

relevant aspects, from exposure to respirable dust and noise ...

Versatility and Power The MC 15 is a compact high-performance drilling rig designed for civil engineering works such as micropiles, anchors, jet grouting ...

The Comacchio GEO line of water well and geothermal drilling rigs embraces an extremely diversified selection of ten models. It ranges from lightweight and small footprint units ideally ...

MULTIPURPOSE DRILLING RIG The MC 30 TX is the new COMACCHIO Tunnel Drilling Rig. Featuring advanced design, it can be converted into a standard drilling rig as well.

Construction site safety poses many hazards and concerns and requires attention and commitment from all parties. "The handling of rods and casings involves a high risk of serious ...

Comacchio is a world-renowned designer and manufacturer of drill rigs for a vast range of applications. Born in 1986, Comacchio is a family-run company, operating from its ...

The rig can be outfitted with a wide range of accessories that enhance drilling efficiency, streamline rod recovery, and support effective treatment of waste ...

The MC 22A is the new MC 22 drill rig version featuring the innovative hydraulic rod & casing carousel. The machine is completely remote controlled, thanks to the unique Comacchio radio ...

The double head system, designed for simultaneous drilling and casing, not only stabilizes the borehole, but allows to drill safer and faster, improving spoils ...

#Company.Voices / @COMACCHIO What are the guidelines and good practices when it comes to drillers' safety? We talked about it with Flavio Durigan, Sales Director of Comacchio S.p.A., ...

Self-Erecting Design - Hydraulically assisted counterweight lifting ensures quick and safe rig-up & rig-down. Modular Transport Configuration - Easily ...

With the new CX line of exploration drilling rigs, Comacchio is well positioned to meet the increased demand for safety and automation in the mining exploration industry.

For this project, the experts at ECI selected the Comacchio MC2D, a compact and highly versatile hydraulic drill rig designed specifically for limited-access projects. Its modular ...

"Drawing from the latest technological developments across various disciplines, we have achieved the combined effect of a rig that gets the job ...
