

Compact drilling rig

The words "Shelf Drilling Holdings Ltd.", the Shelf Drilling Holdings Ltd. logo, and the names and logos of products and services described in this Website are either trademarks, trade names, ...

The MC 15 is a compact high-performance drilling rig designed for civil engineering works such as micropiles, anchors, jet grouting and consolidations in general.

The MAIT HR 130 standard with low head room is a powerful, compact drilling rig that does not require disassembly for transporting from job to job.

Welcome to Drillrigy, your trusted source for small water well drilling rigs. We specialize in crafting compact yet powerful drilling solutions that unlock access ...

The Geoprobe 420M is a compact, limited-access drill rig designed for projects where space is restricted. Despite its small size, this rig is highly capable, ...

Commando(TM) DC300Ri drill rig is a hydraulic, self-propelled, compact drilling unit on a four-wheel oscillated drive carrier with full radio remote control. Easily moved from one location to ...

The Geoprobe 54LT is a versatile and compact drilling rig, ideal for "Direct Push" soil sampling, augering, mud rotary, and rock coring in tight spaces. Its limited access capabilities and range ...

The TSi 150CC Sonic Drill Rig is the most powerful sonic rig on a small platform in the world. It brings full Terra Sonic power and innovation to a compact ...

This agility and mobility make small rotary drilling rigs an attractive option for contractors and project managers who require a versatile and reliable drilling solution. Overall, ...

As a super-single rack and pinion rig, the MDR combines the very latest in drilling technologies in a lightweight, compact, modular package. Designed to operate as a stand-alone, it can be ...

TMG Manufacturing designs and manufactures drill rigs for the compaction grouting industry. Compaction grouting, micropile and foundation contractors ...

With the new generation of compact drill rigs Prime Drilling sets new standards in this performance category. Due to perfected design and optimised components both weight and ...

The mini crawler drilling rig is compact, and can move flexibly and accurately in excavated pits, areas densely

Compact drilling rig

populated with pipelines, or temporary sites. Its ...

The compact-class Hütte drill rig HBR 202 E/D is self-contained, fully hydraulic crawler drill rig, which feature a compact and robust design, simple controls, as well as high efficiency. It ...

Hutte Bohrtechnik's compact class drill rig HBR 203, with separate power pack, was designed to fulfil clients' need for small drill rigs for large-diameter bores. The drilling rig is especially suited ...

When it comes to water well drilling, a small rig doesn't require sacrificing production. With today's technology, small drill rigs provide just as much ...

Micropile drilling rigs | Choosing the right drilling rig Many jobs require drilling, for example: Drilling wells: whether it's to access groundwater or oil. Geothermal ...

KGS Keller Geräte & Service GmbH designs and manufactures a wide range of specialised drilling equipment. This ranges from small compact drilling rigs (KB1) up to large drilling rigs ...

Our SPT drilling and soil investigation platforms are specifically designed for geotechnical engineering. These platforms are compact but powerful and can ...

The B 15 drilling rig is ideal for drilling at shallow depths, light to medium-heavy soils and well construction. It is available with an integrated flushing pump on ...

Sandvik DL210 is a compact and flexible longhole drill rig engineered for production drilling in narrow-vein underground mines. Designed for vertical and inclined plane rings and fans, it is ...
