

Contact Screw Air Compressor Consultation

What is a rotary screw compressor?

Chicago Pneumatic rotary screw compressors provide a powerful and continuous air supply at a variable or fixed speed. Submit an inquiry or find your local dealer for more information on a screw driven air compressor.

What is a screw type air compressor?

Chicago Pneumatic's screw type air compressors leverage the rotation of two screws to offer continuous operation with high efficiency and minimal noise. Our inventory features a wide range of variable speed and fixed speed rotary compressors. Connect with us or your local dealer to determine the optimal air compressor for your facility.

How do I find a compressed air solution?

Get in touch with one of our representatives or call 877-861-2722 to find a compressed air solution that meets your requirements. Compressed air is vital for many industries, but making sure you understand the risks and precautions can help prevent injuries, and can help keep your employees and your business safe.

How do I choose the best air compressor for my facility?

Connect with us or your local dealer to determine the optimal air compressor for your facility. Compressors with a variable speed drive can alter their engine power during operation to generate pressurized air with maximum efficiency.
