

## De710 drill rig

What is a Sandvik de 710 drill rig?

The document provides technical specifications for a Sandvik DE 710 heavy duty core drill rig, including its key features. It has a large "size hydraulic rotation head that can handle drill rods between 1-3/4 to 7 inches in diameter. The rig has a maximum drilling depth of 1126 meters using N wireline drill rods.

What is a de710 drill mast?

standard 40 ft shipping container. The 8,9 m (29.2 ft) long drill mast has a capacity to angle drill between vertical to 45°; and lowers to a supported position for transportation. The DE710 can be found all around the world in different kinds of applications such as in mineral exploration drilling, directional

What is a de710 drill?

with a heavy duty base frame design. It is the most versatile drill in its class and it is available in a range of configurations to suit global operational and environmental demands. Due to the efficient layout of DE710 it can be configured to suit different transport applications and can be packed for shipment in

What is a Sandvik de710?

**SURFACE CORE DRILL TECHNICAL SPECIFICATION** The SANDVIK DE710 is a mid-size coring drill that has a heavy-duty base frame design and is considered to be the most versatile drill in its class. The efficient design allows the DE710 to suit a number of different transport configurations and can be packed

What is a de710 & de740?

applications - the DE710 and DE740. They are designed for deep hole drilling and can be found in a wide range of drilling operations such as mineral exploration, directional drilling and geotechnical drilling all over the world - from easy-access open

How deep can a John Deere rig Drill?

It has a large "size hydraulic rotation head that can handle drill rods between 1-3/4 to 7 inches in diameter. The rig has a maximum drilling depth of 1126 meters using N wireline drill rods. It is powered by a John Deere diesel engine producing up to 180 horsepower.

standard 40 ft shipping container. The 8,9 m (29.2 ft) long drill mast has a capacity to angle drill between vertical to 45°; and lowers to a supported position for transportation. The DE710 can ...

The Sandvik DE710 is engineered to meet the highest standards of safety, efficiency, and reliability, making it the ideal choice for modern mining operations. Experience the future of ...
