Who is Diedrich drill?

Diedrich Drill has made a lasting impact on the geotechnical, environmental, geothermal, and groundwater drilling industries for the production of their innovative drilling rigs. They have earned an outstanding reputation for their ability to deliver quality drill rigs with the latest concepts and designs.

What is a D-50 drill rig?

The D-50 is an all-purpose drill rig for soil and rock explorations using augers, rotary tools, or core drilling tools. Rated from 125 ft. (38m) to 250 ft. (76m) depth with hollow stem or continuous flight augers up to 14" (356mm) hole size. Rated to 1000 linear feet (305m) of core drilling using N series tools.

Are Diedrich heavy duty drill rigs reliable?

Each Diedrich heavy duty drill rig is built to be reliable and durable. They all use a two-section hydraulic system with a mud or water pump that makes them easier to service and maintain. Equipment such as the water tank, rod rack, and auger rack are removable options, allowing drillers to remove parts to suit the project's requirements.

What makes rig source different from Diedrich?

With a focus on operational readiness and performance, Diedrich designs their equipment for precision and durability. This means less downtime and more efficient operations. Rig Source and Diedrich share the same goals: providing specialized drilling equipment for different activities and projects.
