

Dk45 drill rig

How deep can a Sandvik d45ks drill a hole?

Sandvik D45KS drills holes down to a maximum depth of 63 meters (206.69 ft) and is designed for coal, gold and iron ore mining. It prioritizes easy maintenance and repairs for applications where reliability is a necessity. Sandvik D45KS comes with a high pressure air compressor for down-the-hole (DTH) drilling in gold mining or quarrying.

What is a Sandvik d45ks blasthole drill rig used for?

Our Sandvik D45KS blasthole drill is ideal for coal, gold and iron ore mining. It drills holes with a diameter of 152 - 229 millimeters (6 - 9 inches) down to a maximum depth of up to 63 meters (208 feet). This blasthole drill rig offers easy maintenance and repairs for applications where availability and reliability are critical.

Can a d45ks drill be used for rotary drilling?

The D45KS comes with low pressure air for rotary drilling. It can be equipped with high pressure air for down-the-hole (DTH) drilling, most commonly in gold mining or quarrying. The drill also excels in any application where a combination of DTH and rotary drilling is used and maximum reliability is a requirement.

What type of drill rig does DM45 use?

The DM45 is the primary drill rig used for underground collapse and probe drilling. The primary loading fleet consists of 28 m³ CAT 6060 hydraulic shovels (operating primarily in ore) and 48 m³ CAT 7495 rope shovels (operating primarily in waste zones). The shovel size was matched with a fleet of 300-t CAT 795 trucks.

What is the first pass capability of a d45ks drill?

First pass capability is 8,7 m (28' 6"). The D45KS comes with low pressure air for rotary drilling, quarrying. The drill also excels in any application where productivity throughout its hole size range. It is often found in challenges of adapting to rugged mining environments. The D45KS is used in Asia, most commonly in coal, gold, and iron ore. These drills

What is a d45ks d50ks blasthole drill?

D45KS_D50KS Blasthole Drill - Free download as PDF File (.pdf), Text File (.txt) or view presentation slides online. The document discusses Sandvik's D45KS and D50KS blasthole drills. It provides details on their specifications, components, and capabilities. The drills are designed for maximum productivity and durability in mining applications.
