

DL421 longhole drill rig

It is capable of drilling vertical and inclined fans and single or parallel Ø64...115 mm longholes up to 54 meters in depth, using T38, T45 and T51 MF-rods or Ø65 mm/T45, ST58 and ST68 tube ...

Sandvik DL421 is a versatile longhole drill rig engineered for large-scale production drilling in underground mines. It is designed for vertical and inclined plane rings and fans, as well as ...

Explore optimal longhole drilling solutions with the Sandvik DL331 rig, a reliable drill designed for productivity in underground mining operations.

We offer battery-driven underground drills for all underground drilling applications. Sandvik DL421 is a versatile longhole drill rig engineered for large-scale production drilling in underground mines.

APPLICATION The Sandvik DL420-15C is an electro-hydraulic long-hole drilling rig for large-scale production drilling in un-derground mines. The rig is capable of drilling 89 - 127 mm (3 1/2" - ...

This page provides you with SANDVIK DU412i Articulated in-the-hole production drill rig parameters, prices, pictures and other information. It is the main website for your SANDVIK ...

TECHNICAL SPECIFICATION Sandvik DL432i is a fully-mechanized, highly versatile and compact electro-hydraulic top hammer longhole drill designed for underground mass mining in ...

"The new DL422i expands our i-series longhole production drill offering with a traditional diesel engine layout and begins to take over the ...

Sandvik HL1560ST is a hydraulic top hammer rock drill meticulously crafted for large-diameter longhole drilling applications with DL411 and DL421 underground longhole drills. Engineered ...

This versatile piece of equipment is designed to drill vertical or inclined rings, as well as long single or parallel holes. The drilling module with 360° rotation, wide arm oscillation and tilt ...

Optimize hard rock mining with the Sandvik DL321 rig - a longhole drill meticulously designed for reliability and efficiency underground.

Underground long hole/production drill training using the world's largest, proven and tested supplier of surface and underground equipment simulators to the global mining industry.

This page provides you with SANDVIK DL421 Longhole drill rig parameters, prices, pictures and other

DL421 longhole drill rig

information. It is the main website for your SANDVIK ...

SURFACE DRILL RIGS DL432i Longhole drill rig, DL431 Longhole drill rig, DL422iE Longhole drill rig, DL421 Longhole drill rig, DL411 Longhole drill rig, ...

Explore electric longhole drilling with the Sandvik DL422iE rig - a state-of-the-art, electric drill combining efficiency and sustainability for underground mining.

This page provides you with SANDVIK DU421 Articulated in-the-hole production drill rig parameters, prices, pictures and other information. It is the main website for your SANDVIK ...

"The new DL422i expands our i-series longhole production drill offering with traditional diesel engine layout, and starts to take over the work ...

Sandvik DL421-15C (Solo 07-15) Sandvik DL421 is an electro-hydraulic, longhole drill rig engineered for large-scale production drilling in underground mines. This versatile rig has ...

SANDVIK - DL421 - TOP HAMMER LONGHOLE DRILL RIGS We engineer an extensive range of underground drill rigs for mining development and production. Available in a variety of feed ...

Sandvik DL422iE is a fully automated, battery-powered top hammer longhole drill designed for underground mass mining in 4 x 4 m or larger production drifts. It is capable of drilling vertical and ...

Underground long hole/production drill training using the world's largest, proven and tested supplier of surface and underground equipment simulators to the ...

TECHNICAL SPECIFICATION Sandvik DL431 is a fully-mechanized, highly versatile and compact electro-hydraulic top hammer longhole drill designed for underground mass mining in 3.2 x 3.2 ...

The Sandvik DL432i is a fully automated, electro-hydraulic longhole drill designed for underground mass mining, capable of drilling longholes up to 38 meters deep. It features a user-friendly ...

E DRILL TECHNICAL SPECIFICATION Sandvik DL421 is a fully-mechanized and compact electro-hydraulic top hammer longhole drill designed for underground mass mining in 3.6 x 3.

It is capable of drilling vertical and inclined fans and single or parallel Ø64...115 mm longholes up to 54 meters in depth, using T38, T45 and T51 MF-rods or Ø65 mm/T45, ST58 and ST68 tube ...

Achieve high-performance longhole drilling with the Sandvik DL311 rig - a drill designed for heavy-duty work, offering next-level reliability in drilling and bolting.

DL421 longhole drill rig

TECHNICAL SPECIFICATION Sandvik HL1560ST is a hydraulic top hammer rock drill designed for DL411 and DL421 underground longhole drills. It is capable of drilling Ø89 - 127 mm holes ...

SURFACE DRILL RIGS DL432i Longhole drill rig, DL431 Longhole drill rig, DL422iE Longhole drill rig,DL421 Longhole drill rig, DL411 Longhole drill rig, DL331 Longhole drill rig, DL321 Longhole ...
