

Domestic hydraulic rock drill fully automatic

It combines a rock drill, rock splitter, and excavator perfectly It adopts pin-shaft installation, so it is easy to replace other equipment It can be rotated 360°; ...

Jining Hongrun Machinery Equipment Co., Ltd. was founded in 2012, has many years of rich experience in special equipment research and development and manufacturing, and ...

The modern, powerful hydraulic rock drill and the smooth drilling controls system allow high drilling performance with good drill steel economy and high machine reliability. The operating ...

1. The diesel engine is equipped with an electric start, which makes it easy to start and reduces the operator's labor intensity. 2. The drilling rig adopts the hydraulic working ...

The HYCON HRD28X is a high performing handheld rock drill designed for the toughest drilling applications in granite and concrete up to 6 meters of drilling ...

G5 Full Hydraulic Top Hammer Drill G5 full hydraulic top hammer, equipped with National III engine, imported brand variable pump system, Apato high-power rock drill, high perforation ...

Designed for surface mining, quarrying, and large-scale construction, these drills feature electric/hydraulic joystick controls, allowing operators to manage ...

TECHNICAL SPECIFICATION Sandvik DT821 is a two-boom electro hydraulic jumbo for fast and accurate drilling in tunneling and cavern excavation. The hydraulic controlled drilling system ...

The purpose of the feed force is to keep the drill bit in close contact against the rock. The engineering challenge is to combine high feed force with good rotation.

Marini designs and produces certified hydraulic rock drill attachments ready to be installed on mini, midi and big self-propelled machines. The drilling equipment produced by Marini is ...

The hydraulic system has an increased drill rate compared to electrical systems, and is considerably more energy efficient than pneumatic drills. It saves your ...

The exceptional "V"-shape layout is designed for good visibility and balance, which, combined with the powerful four-wheel-drive articulated carrier, ensures fast and safe manoeuvring even in ...

Domestic hydraulic rock drill fully automatic

The Hydraulic Rock Drill also uses less water while drilling (12 l/min), and the automatic water function stops flushing when drilling ceases. All four pusher legs, connected to the rock drill via ...

A walking rock drill, also known as a rock drilling rig or mobile rock drill, is an efficient and flexible rock drilling equipment. It is usually equipped with tracks ...

Reliable performance using international advanced rock drill, core technology: Drilling protection system, automatic drilling depth measurement, automatic ...

The rotary drilling rig adopts a hydraulic crawler chassis, a self-lifting and foldable drill mast, a telescopic drill rod and other technical applications. It is a construction machine suitable for ...

The integrated rock drill and splitter for excavator's drilling depth is 1600mm, the splitting force is 8000t. Get rock splitter price now!

Key attributes Type Drilling Rig Power Type Diesel Use Water Well Voltage 220V Drilling Diameter 105-500mm Drilling Depth Max.800M Place of Origin Shandong, China Weight ...

The integrated rock drill and splitter is a non-blasting rock crushing equipment that integrates rock drilling and splitting rock. The perfect combination of rock ...

The drilling machinery comes with fully hydraulic rock drill system and anti-jamming function, allowing for quick drilling speed with low consumption. The drilling jumbo is featured by ...

TAIYE fully hydraulic surface top-hammer drilling rig is equipped with a high-power hydraulic rock drill for drilling operation. As a hydraulic drilling rig ...

TECHNICAL SPECIFICATION Sandvik DT821-SC is a two boom electro-hydraulic jumbo for fast and accurate drilling in tunneling and cavern excavation. The hydraulic controlled drilling ...

This happens several thousand times per minute in some cases and is much more effective than electric drills or core drills in rock and concrete. There are many things to consider when ...

DL331 is a fully-mechanized, highly versatile and compact electro-hydraulic top hammer longhole drill designed for underground mining in 3 x 3 m or larger production drifts. It is capable of ...

Shandong Zhiqiang Drilling Equipment Co., Ltd. is a newly upgraded hydraulic system geological exploration drilling rig that specializes in core taking, rock core drilling, and other functions. ...

ROTARY DRILL RIGS - REVATHI (REL C650) REL C650 Drill series is a crawler-mounted, self-contained

Domestic hydraulic rock drill fully automatic

hydraulic Rotary cum DTH blast hole drill. It ...

Epiroc rock drills are core components to your drilling equipment. To ensure the safest and most efficient operation of your equipment, we offer a full line of ...

The cab design is simple, comfortable and safe. The pusher beam is equipped with double support drill and automatic hydraulic rod unloading machine, which makes the operation faster ...
