What tools do you need to drill a hole?

From hammers, bits, shock absorbers, hole openers to casing systems and (WAI) water hammers and hole openers. Comprehensive range of DTH rock drilling tools for any tough environment. Cost effective drilling method for sample grade control and getting initial geological data.

Which drill tool is best for geothermal drilling?

Mincon tooling has earned a reputation as the driller's choice around the world in geothermal hole and water-well drilling. Upgrade to a Mincon DTH hammer and enjoy using the most advanced drill tooling available. We offer tailored drilling solutions for your project needs.

What is a down the hole hammer?

Bits are conditioned by a special manufacturing procedure which establishes a protective cushion on the bits, thus reducing chances of cracking which often occur in hi-impact drilling products. The Down the Hole hammers range varies from 2.5 to 12 inches diameter. The Down the Hole over burden drilling systems ranges from 4 3/4-12 inches diameter.

What DTH drilling tools do you offer?

We offer a complete range of DTH drilling tools including hammers, bits, pipes, adapters, breakout benches and grinding machines with consumables. The history of the down-the-hole hammer manufacturing goes back more than four decades. For the past 40 years and still today, our goal is to produce the best products for our customers.

What is a down the hole over burden drilling system?

The Down the Hole over burden drilling systems ranges from 4 3/4-12 inches diameter. DTH Products are field tested to stringent quality requirements to provide consistent performance results in the field. We use a combination of premium steel, quality carbide and state of the art design and manufacturing to yield superior drilling products

How big is a down the hole hammer?

The Down the Hole hammers range varies from 2.5 to 12 inches diameter. The Down the Hole over burden drilling systems ranges from 4 3/4-12 inches diameter. DTH Products are field tested to stringent quality requirements to provide consistent performance results in the field.

For efficient Down-The-Hole (DTH) drilling, you need high performing drilling tools. Tools that increase your productivity and sustainability, while reducing your total operation cost and ...

Down-The-Hole drill, abbreviated to DTH is probably the most productive and cost effective method used to

Down-the-hole accessories
