

Drill rig for hire

What types of drill rig rentals are available?

In our rental equipment inventory, we offer various types of drill rig rental options: coring rigs, exploration rigs, direct push rigs, geotechnical rigs, environmental rigs, truck haulers, and support equipment. A core drill rig is a specialized piece of equipment for core sampling.

Why should you rent a drilling rig?

In the dynamic drilling industry, there is nothing more important than high-quality equipment rentals. Drill rig rentals not only provide flexibility but also ensure that drilling contractors are getting the latest and best equipment without the complexities of owning a rig.

Who is Oasis drill rig rental?

Oasis Drill Rig Rental's core business is well drill rig rentals & seismic geophysical tests to ensure that your well drilling project is successful!

What types of drilling equipment do you offer?

We offer rental drilling equipment that brings high value to customers at competitive rates. There are various types of drilling equipment, including coring, exploration, direct push, geotechnical, and environmental. This equipment is tough, durable, and brings incredible performance in every endeavor.

What is a core drill rig?

A core drill rig is a specialized piece of equipment for core sampling. They allow professional drillers to extract a piece of the ground by drilling cylindrical holes in the surface, simplifying the drilling process and eliminating the need for purchasing specialty equipment.

What is a direct push drilling rig?

Direct push drilling rigs are machines that use a hydraulic hammer drill to penetrate the ground. These are useful for collecting soil and groundwater samples without the need for rotary drilling. We offer a range of models for varying depths and needs from Geoprobe rigs.
