What rig is used in the video?

The rig used in the video is one of the most advanced land rigs in the industry with top drive, Iron Roughneck™ and automated catwalk. The drilling portion of the video is followed by well completion. The video shows both the surface and animated-downhole process for multi-stage hydraulic fracturing.

What is a drilling engineering course?

This one-day intensive online course offers a thorough introduction to the fundamental principles and practices of drilling engineering. Designed for professionals and students in the oil and gas industry, the course covers essential topics including drilling rigs and equipment, well planning and design, drilling fluids, and safety measures.

What is a drill animation?

Animations introduce students to the basic fundamentals of the drilling process. Introduces the drill bit, drill collar, drill pipe, and derrick. Then, introduces casing pipe and the cementing process. All concepts taught and explained for accessibility to students with no prior drilling experience.
