

Drilling rig edr

Cloud-native tool that processes rig EDR data to optimize casing installation safely through physics-based models and advanced analytics. A single digital platform to access all Rig ...

CORTEX Key is the gateway for real-time rig automation. It allows us to tap directly in to our proprietary CORTEX platform and connect all systems at the rig site, including rig control, ...

The new Pason Electronic Drilling Recorder (EDR) 3.9 steps up to the plate with a sleek new interface and new multiple trace capability. Rig personnel need even faster access to drilling ...

The EDR includes two traces you can use to determine the rig's state at a specific time or depth: Rig Super State and Rig Sub State. The super state describes activity at a high ...

Evolution Drill Rigs launches a new compact multipurpose drill rig the FH1000 Evolution Drill Rigs announces the release of the FH1000, its newest addition ...

It designed for multiple applications on the drilling rig, including Depth Logging, Mudlogging, Lithology, Pit Volume Totalizer (PVT), and more. The EDR makes real-time surface ...

DrillSense is an Electronic Drilling Recorder (EDR) and Drilling Data Management System installed as a standalone system or as the primary mud logging unit ...

Electronic Drilling Recorder (EDR) The leader in data acquisition on workover operations. We are currently developing the Electronic Drilling Recorder (EDR). No rig up or rig out required. Built ...

The RigSense(TM) 4.0 electronic drilling recorder (EDR) reaches far beyond basic instrumentation with its ruggedized touchscreen displays and integrated ...

Electronic Drilling Recorder by Drilliphant Connect people. Collect insights. Control the operation. Drilliphant's Electronic Drilling isn't just a recorder. It's a real-time data network that connects ...

Call Evolution Drill Rigs in Queensland, we design and manufacture innovative drilling and ancillary equipment for leaders in the exploration industry.

The company rents out Electronic Drill Recorders (EDRs) and mud management systems (PVTs) to oil rig operators as well as providing software analytics and drilling automation.

The Electronic Drilling Recorder (EDR) is a complex network of sensors, instruments, computers, and touch

Drilling rig edr

screen displays that link the rig manager, ...

The M/D Totco(TM) e-Wildcat(TM) 2.0 electronic auto driller delivers superior performance, including improved bit wear, increased safety, enhanced rig ...

Cyberloop EDR was developed to fulfill high requirements of the oil and gas industry. With a customized set of a wide array of sensors, the EDR is modular and scalable from small ...

Features Pre-installed WellWizard™; software facilitates the tracking, organization, and analysis of EDR data. The software, which includes the IADC reporting suite, enables users to generate ...

Pason is a leading energy services and technology company. We develop and deliver high-value hardware, software, and services, primarily for the oil and ...

Monitor operations wherever you are. Our WellData(TM) 4.0 remote monitoring solution provides critical drilling information anywhere in the world, as if at the ...

Tatsoft Rig Monitoring, Tatsoft RM, collects real-time data from Rigs, on-shore or off-shore locations, connecting with your existing field EDR or directly with the ...

EMS IV provides 13 configurable monitoring screens, alerts, security features, individual user preferences and instant messaging. These combine to provide ...

Description: The Laversab EDR is a data acquisition system with purpose-built software to monitor surface parameters in real-time. It designed for multiple applications on the drilling rig, ...

Description: The Laversab EDR is a data acquisition system with purpose-built software to monitor surface parameters in real-time. It designed for multiple ...

OFI India Ltd offers rig instrumentation services in India. Mud Volume Totalizer (MVT), Electronic Data Recorder (EDR) can be effectively used as electronic ...

The benefits of electronic drilling record technology (EDR) are becoming more recognized among the horizontal directional drilling (HDD) ...
