

Drilling rig for soil investigation

Whether you need a rig for shallow soil sampling or deep rock drilling, we have the expertise and equipment to help you succeed. For more information on our geotechnical ...

Find your soil investigation drilling rig easily amongst the 38 products from the leading brands (SOILMEC, Hengwang, Hydra, ...) on DirectIndustry, the ...

The CSR-155 has the versatility to auger drill, rotary/mud drill, wireline rotary core drill, SPT hammer test, DMT, and full-function CPT test in ONE compact track ...

DESCRIPTION Small and compact soil investigation rig, fully hydraulic on crawler chassis. Operated by a Honda GX 390 engine with 8.7 kW of power, the new Massenza MII can carry ...

We are a SAC SINGLAS accredited site investigation inspection body in Singapore and provide quality soil investigation works with advanced crawler ...

Our geotechnical drilling and sampling services include trial pitting, overwater work, sonic drilling and more. Benefit from our range of rigs, dynamic sampling and rapid data capture.

DRILLING AND SAMPLING OF SOIL AND ROCK This chapter describes the equipment and procedures commonly used for the drilling and sampling of soil and rock. The methods ...

Geotechnical drill rigs are specialized equipment for the rigorous demands of construction and geological projects. These rigs play a key role in ...

Light weight portable rigs used for geotechnical drilling and soil sampling with sophisticated soil investigation and compaction control capability.

General The Competitor is designed to sink boreholes up to 130 mm diameter through soils and weak rock, including clays, silts, sands, gravels and chalk. The rig is primarily used for shallow ...

The STR-155 is our 55hp drill rig for SPT soil testing, wireline core testing and rotary drilling. It is designed for the engineer that requires an easily maneuverable, yet powerful SPT & coring ...

Construction Foundation Drilling and Piling Machine Drilling and piling machine / rig from ABI, Beretta, Jintai, Attas Itech, and Tescar.

FLEET We have one of the world's largest fleets of integrated geotechnical site investigation vessels

Drilling rig for soil investigation

purposefully equipped for offshore geotechnical site ...

Soilmec S.p.A is an international company leader in design, manufacture, and distribution of equipment for the ground engineering industry, drilling and ...

SPT-LC IV is a crawler-type self-propelled multifunctional soil investigation machine. It can perform rotary/auger functions on the same drilling rig, and ...

These rigs pack the pull and push power necessary to complete your geotechnical investigations for roadways, buildings, tunnels, and levees while also providing the control to fine tune your ...

A true all-rounder combining different drilling methods yet in one compact rig. All functions work fully hydraulic and moves quick due to its crawler tracks even ...

Discover the diverse range of drilling rigs at GA Site Investigation Ltd in Guisborough. From rotary to sonic rigs, we provide reliable and efficient ...

Compact, versatile geotechnical drilling rigs capable of a wide range of rotary and percussive drilling techniques for site investigation.

Knowing the quality of the soil is essential for reducing the risk of working with unstable or unhealthy soil. Whether determining the best location for a water ...

Site Investigation We have been providing quality soil drilling, offshore marine drilling and rock coring including in-site soil testing and sample recovery services to contractors, developers ...

Getech Rigs specializes in manufacturing high-quality DTH rigs for mining, exploration, core drilling, soil investigation and water well. Our versatile rigs can be mounted on crawlers, ...

Follow with our guide to Geotechnical Drilling Methods. From auger to sonic drilling, learn about the different types and discover which ...

Site Investigation We have been providing quality soil drilling, offshore marine drilling and rock coring including in-site soil testing and sample recovery ...

Innovation and versatility allow Massenza rigs for geotechnical applications to satisfy the requirements of such an active and diversified market: soil ...

Our competent and well-trained staff will assemble drilling machinery at specified Soil Investigation locations to retrieve soil and rock material samples. In this ...

Drilling rig for soil investigation

Geotechnical investigation is a critical first step in any construction project, laying the groundwork for safe and stable structures. It involves ...

The HBR 207 is a hydraulic drilling rig for micropiles and ground anchors, also suited for soil investigation, slope stabilization and geotechnical drilling. The HBR 207 is one of the most ...

Drilling rigs come in many different sizes, shapes, purposes, and setups. The two most common methods of drilling for soil samples are the wet rotary method and the hollow ...

The STR-155 is our 55hp drill rig for SPT soil testing, wireline core testing and rotary drilling. It is designed for the engineer that requires an easily ...
