

# Drilling rig mast for sale

What is a drilling rig mast?

Usually the first component of the drilling rig people notice, the mast is a tall fabricated structure towering above all the other drilling components. The mast is vitally important, as it supports the components of the drilling mechanism hovering above the point where drilling will take place. 2. Drilling Line

Where can I buy a used drill rig?

o Piling Driving Accessories. Sun Machinery is the place for contractors to buy and sell rigs and vessels and related equipment. Our database contains thousands of used equipment for sale, which are presented and continuously updated. Wanted!!! Your surplus drill rigs, related components, or vessels.

How do you rig a mast?

Follow your rigging plan to place the holes in the position you want. For the shrouds, consider drilling just a single hole in the front of the mast, rather than two holes either side. As a general guide, shroud height higher up the mast will provide better sideways control of the mast, but allow for less forestay tension.

What are Drilling Derricks & rig masts?

Drilling derricks and Rig Masts consist of a steel framework with a square or rectangular cross-section. Their purpose is to support the hoisting equipment and rack the tubulars while tripping pipe. The number of joints in a stand (single-double-triple) that the rig can pull is dependent on the height of the derrick.

What is a highdrilling mast?

Manufactured strictly to the latest edition of API Spec 4F and based on an extra rigid design, Highdrilling masts are suitable for even the harshest drilling environments. Land rigs, mobile rigs, and offshore rigs generally require different types of masts.

How much weight can a rig mast support?

Commonly used in land rigs across North America and the Middle East. Built for demanding drilling projects, these masts support up to 1,000,000 lbs, and reach heights of 140 to 150 ft. Their lattice or cantilever designs allow for optimal weight distribution and rig floor flexibility.
