

Drilling rig movers odessa tx

Are oil rig moving companies a crane service company?

As part of our oilfield service, we're a crane service company and can offer the experience, expertise, and safety your rig or construction project requires. Our experienced crane operators will ensure your project is completed perfectly. Most oil rig moving companies are part of a larger oilfield service company.

How do you move on-shore oil rigs efficiently?

Moving on-shore oil rigs efficiently requires precise scheduling, coordinated labor and expert knowledge of the oilfield. BOSS's highly experienced, safety-conscious truck drivers, crane and forklift operators, and helpers are all supervised by truck pushers who have decades of rig moves under their belts.

Why should you choose RingCo rig movers?

We provide safe, swift transportation of your rig or equipment to wherever it needs to go. When you contract with Ringco, you can expect rig movers dedicated to ensuring the timely delivery of your oilfield equipment safely and effectively.

Where can I move a land rig?

From initial planning and breakdown to loading, transport and reset, we can move any size land rig anywhere in the continental United States.

How long does it take to move a rig?

Quite simply, you get the experienced team you would expect to get the job done safely and on time for rig moves from 100 feet to 1,000 miles. We move 15 to 20 rigs a month, and we have the capacity to move multiple rigs at a time in locations spanning from East Texas to West Texas Louisiana, Arkansas and Oklahoma.

How many rigs do you move a month?

We move 15 to 20 rigs a month, and we have the capacity to move multiple rigs at a time in locations spanning from East Texas to West Texas Louisiana, Arkansas and Oklahoma. We have an annual permit for up to 120,000 pounds and solid relationships with state permit officials to facilitate even larger loads.
