What is a Pennsylvania oil and gas Location map?

The foundation for this map is a data layer called "Oil and Gas Locations - Conventional Unconventional," which is published by the Pennsylvania Department of Environmental Protection (DEP), and made available on the Pennsylvania Spatial Data Access, also known as PASDA.

Where are Pennsylvania's oil and gas storage wells most vulnerable?

Following an enormous gas leak in Jackson Township, Cambria County Pennsylvania, we mapped oil and gas storage wells and fields throughout the state and found that the majority of Pennsylvania's storage wells were drilled prior to 1979, making them most vulnerable to well failures.

How does PA DEP oil & gas reporting work?

The user also has the ability to use map functionality to locate a specific address, county, latitude and longitude, municipality or zip code. Additionally, the user has the ability to link to the PA DEP Oil & Gas Reporting Website to review production and waste reporting as provided by the operators.

How do I search for a well in a county?

First select county that municipality is located in: County Search will display only wells in the selected county that meet the search criteria submitted and shown on the map. Counties that have wells:
