

Drilling rig sink hole

They first emerged in 1980, and things haven't gotten better since. Now, an unprecedented study reveals Wink and its vast sinkholes are just a tiny part of a much bigger ...

Leopard(TM) DI550 diesel-powered, down-the-hole (DTH) drill has enhanced mobility, a smaller footprint and can serve multiple sites. Designed for DTH ...

The Jefferson Island Salt Dome is the location of Lake Peigneur, which grew substantially during a 1980 incident where an underground salt mine, active at ...

The last remains of a house in Lake Peigneur Louisiana. A Drilling accident cause a salt mine to collapse creating a sink hole. It consumed a drilling rig and 11 ...

In November 1980, in the process of generating revenue for (of all things) an environmental cleanup fund, a Texaco oil rig accidentally punctured the top of a salt mine ...

Workers on an oil drilling rig in Lake Peigneur, Louisiana, felt the earth tremble beneath their feet. A bizarre disaster was unfolding--a disaster that seemed impossible in its ...

The hole is in the centre of the ship, directly below the derrick. It's called a "moon pool" and is an essential part of our drilling operations. The drill pipe hangs ...

The Lake Peigneur drilling disaster is unbelievable! That catastrophic man-made event drained an entire lake, swallowed up eleven barges, many trees and 65 acres (260,000 m²) of land into a salt mine shaft, creating the biggest waterfall of Louisiana.

At the same time the oil workers were watching their \$5 million drilling rig disappear into the lake, workers in the salt mines below the lake ...

The staff of the drilling rig fled the platform before it was sucked down into the new depths of the lake. Three dogs were reported killed, however. Days after the disaster, once the ...

On the morning of November 21, 1980, a Texaco oil rig team on Louisiana's Lake Peigneur noticed that their drill had seized up below the ...

Discover the secrets to drilling a countersink flawlessly in woodworking projects, ensuring flush screws for a polished finish. Master the basics and choose the right tools to ...

Drilling rig sink hole

This chapter discusses several accidents that occurred during drilling of wells, resulting in significant material damage and serious ...

Concluding that something had gone wrong, the men on the platform cut the attached barges loose, scrambled off the rig, and moved to the shore. Shortly after ...

Mining and drilling activities: Underground mining or drilling operations can disrupt the natural stability of the earth, creating conditions for sinkholes. Leakage from underground pipelines or ...

We tell you the story of the biggest man-made whirlpool accident ever made. Early in the morning on November 21, 1980, workers decided to abandon their oil drilling rig on the ...

When drilling offshore wells using bottom-supported offshore rigs with an increased risk of encountering shallow gas, the safest approach is to drill sacrificial pre-spud ...

Because of an incorrect or misinterpreted coordinate reference system (the rig was positioned as if the coordinates were in the Universal Transverse Mercator coordinate system when, in ...

A lone drilling rig hammered away on a muddy, puddle-laden King of Prussia, PA, construction site on an unseasonably cold April morning. Future residents of the five-story, 248 ...

When it comes to installing a vessel sink in your bathroom, one important consideration is what size hole to drill for the sink. Choosing the right size hole ensures a ...

Drilling rigs serve as the backbone of various industries, from oil and gas exploration to geothermal energy extraction. However, the efficiency and safety of drilling ...

Kola Superdeep Borehole, commemorated on a 1987 USSR stamp Drilling at Kola SG-3 began on 24 May 1970 using the Uralmash -4E, a serial drilling rig used for drilling oil wells. The rig ...

February 14-15, 1982 - The Ocean Ranger was a mobile offshore drilling rig that sank to the bottom of the ocean off the coast of Canada. During ...

Deepwater Horizon was a floating semi-submersible drilling unit --a fifth-generation, ultra-deepwater, dynamically positioned, column-stabilized drilling rig owned by Transocean and ...

An oil drilling operation at Lake Peigneur accidentally punctured a salt dome, creating a sinkhole that swallowed barges and caused the Delcambre Canal ...

A man has described how he pulled a worker from an 80ft (25m) deep hole when a disused mine shaft collapsed close to houses in west ...

Drilling rig sink hole

The whirlpool quickly swallowed the offending drilling rig, multiple barges, and a good portion of the lake shore. The lake had flowed outward ...

The Lake Peigneur drilling disaster drained an entire lake, 65 acres (260,000 m²) of surrounding land and created the biggest waterfall of Louisiana.

The borehole drilling equipment at our disposal includes a fleet of four drill rigs and three mud treatment units. Among them is a bespoke rig ...
