

Drilling rig walking

Unlike most conventional rigs, the Flex3 Walking Rig is a side saddle configuration to reduce flat time during common rig activities: drilling, pad to pad rig moves, and well to well rig walks, ...

Our Columbia Rig Walking Systems allow operators to move a loaded rig - including full fluids, backload, and all tools - from well to well. This eliminates ...

A Chassis for Oil Rigs and More Entro Pony-Sub walkers are built from a set of boxes or frames designed around our walking feet. These boxes pin together either directly or with spreader ...

The lift and slide system is operated by hydraulic cylinders to move the rig - including drill floor equipment and full setback -to the desired position step by ...

Rig Moving & Walking Systems From the harsh desert landscapes to the cold arctic tundra and everywhere in between, we can provide a rig walking or ...

The Nabors PACE-S Rig Series is engineered for exceptional performance and quicker rig moves. It's slingshot design and self-sufficient substructure enable rapid rig moves and setup, ...

One of the most significant advancements to reduce costs for drilling multiple horizontal wells from a single surface location or pad is the "walking" rig. A walking rig is self-propelled because it ...

PACE-X800 The PACE-X800 rig is a cutting edge rig design optimized for drilling multiple wells on a single pad. It can move in any direction along the X and Y axis, and is capable of ...

Designed to efficiently mobilize land-based, box-on-box drilling rigs for hole-to-hole moves. The Entro system fits large walking feet into existing sub designs and still maintains the ability to ...

The walking beam concept continued on into the portable spudders and drilling machines of the 1920's, 30's, 40's and 50's. Some of the old abandoned portable rigs in America's early oil belt ...

At Columbia Industries, we're experts in walking Drilling Rig Systems and our Kodiak Cub Walking System can move drilling rig substructures.

Step into the future with HelmerichPayneInc's Walking Rig - a hydraulic marvel sidestepping inefficiencies and paving the way for a new era in drilling. Watch this automated giant stride ...

FlexRig Fleet Solutions FlexRig Fleet Solutions A revolution in rig design More than 20 years

Drilling rig walking

ago, H& P pushed the industry further through the development ...

Applications Entro King-Pin walking feet are uniquely suited to drilling rigs or other large structures where conventional walking feet are difficult or impossible to fit, since it is well-suited to ...

NOV IDEAL RIG WALKER The 4J2400KP Ideal's walking system is designed to efficiently mobilize NOV Ideal rigs for hole-to-hole moves. The Entro system fits large walking feet into ...

Land rigs As mechanization made the hunt for hydrocarbons more efficient, it had a direct effect on land rig design. The first land rigs were permanent wooden structures and would be left in ...

Move Your Rig As-Is Entro StrongBack walkers are specialized Pony-Sub Walkers designed to be used with single piece substructures with above ground completions. The StrongBack allows ...

High flexibility in rig travel Designed by T& T Engineering Services, the Lift & Slide walking system enables a rig to move forward, backward, and sideways. The ...
