

Epiroc's long-hole drilling rigs are used for production drilling in underground mining applications. With a variety of feed lengths, positioning configurations, rock drills, and an extensive options ...

What makes Simba E70 S the next obvious step in production drilling is not its automated features alone. It is also the ability to track and evaluate its performance, then ...

The improved Simba E70 S continues to be the choice in medium-to-large sized drifts, with a hole range of 51 to 178 mm. The boom-mounted configuration makes for excellent flexibility while ...

A Down-the-Hole (DTH) drilling rig is a type of drilling equipment that drives a pneumatic hammer directly behind the drill bit at the bottom of the hole. This method delivers powerful, high ...

DTH drilling, also known as Down-the-Hole drilling, is a method used to drill boreholes into the earth's surface. This technique involves a hammer that is ...

ZEGA TOP-HAMMER AND DOWN-THE-HOLE DRILL RIGS Introducing the ZEGA Drill Rig, the pinnacle of efficiency and precision in drilling technology. ...

Epiroc's new long-hole production drill rig for medium to large-sized drifts, Simba E70 S, offers more than cutting-edge automation features and excellent drilling quality.

With a variety of feed lengths, positioning configurations, rock drills, and an extensive options program; we offer the optimum long-hole drilling rig for every application.

Epiroc's new long-hole production drill rig for medium to large-sized drifts, Simba E70 S, it says offers more than cutting-edge automation ...

The Simba E70 S, Epiroc's new long-hole production drill rig for medium to large-sized drifts, offers more than cutting-edge automation features and excellent drilling quality. It ...

The Simba E70 S is part of Epiroc's Smart series and can also be delivered with the optional battery-electric driveline for reduced environmental ...

A down-the-hole drill, usually called DTH Drilling Rig, is basically a mini jackhammer screwed on the bottom of a drill string. The speedy hammer ...

By separating the rotation and percussion in dual drill strings, power is transferred straight from the rock drill

E70 down-the-hole drill rig

to the drill bit with jointless inner rods, allowing for very efficient and consistent ...

DTH drilling rig, short for Down-The-Hole drilling rig, is a cornerstone of modern drilling technology. Renowned for its efficiency, precision, and versatility, this equipment has ...

The improved Simba E70 S continues to be the choice in medium to large sized drifts, with a hole range of 51 to 178 mm. The boom-mounted configuration makes for excellent flexibility while ...

Our new long-hole production drill rig for medium to large-sized drifts, Simba E70 S, offers more than cutting-edge automation features and ...

Epiroc's new long-hole production drill rig for medium to large-sized drifts, the Simba E70 S, offers automation features and ideal drilling ...

The Simba E70 S is a production drill rig designed for medium to large sized drifts, capable of drilling holes ranging from 51 to 178 mm. It features ...

Precise and flexible production drilling The drill rigs in the Simba E7-series are suited for production drilling in me-dium to large sized drifts, in the 51 to 178 mm range. Equipped with a ...

Down-the-Hole (DTH) drilling is a technique used to create deep, precise holes in hard rock and challenging ground conditions. In this method, ...

Epiroc's new long-hole production drill rig for medium to large-sized drifts, Simba E70 S, offers more than cutting-edge automation features ...

DTH rig machine, down-the-hole drilling rig, is a powerhouse drilling tool designed for deep, accurate, and efficient boring in demanding environments. Ideal for mining exploration, quarry ...

Mastering the operation skills of down-the-hole drilling rigs can help everyone complete construction tasks more safely and efficiently.

E70 down-the-hole drill rig
