

Energy drilling australia rig 4

Who is energy drilling?

Energy Drilling is a premier provider of tender assist drilling services, strategically positioned to support Southeast Asia's growing need for natural gas. With a commitment to excellence and innovation, we are driving the future of offshore drilling in one of the world's fastest-growing regions.

Could a multi-well Rig boost Australia's energy security?

Multi-well programme for several operators starting with ConocoPhillips could boost Australia's energy security. Transocean's semi-submersible rig Transocean Equinox has arrived in Australia's Otway basin ahead of a multi-well campaign that will kick off with a ConocoPhillips-operated exploration campaign in offshore blocks Vic/P79 and T/49P.

Why should you choose energy drilling?

Energy Drilling's fleet of advanced tender-assisted rigs delivers efficient and safe drilling operations. Our modern fleet plays a vital role in supporting Southeast Asia's growing natural gas demand and sustainable energy transition.

Which drilling rig is best for severe metocean conditions?

GH This "best in class" for severe metocean conditions. T-15 is a purpose built barge-type self-erecting tender assisted drilling rig with a flat bottom, raked stern and bow hull shape. The rig is designed for development drilling involving multiple well slots on fixed wellhead platforms in up to 6,000 ft of water with pre-laid mooring.

What makes our rigs unique?

All our rigs incorporate smart technologies using programmable logic controls and proprietary technologies to achieve exceptional performance. All our rigs are fast moving with minimal disturbance and are perfect to meet the challenges of the Australian oil and gas market.

What is a T-16 rig?

T-16 is a purpose built barge-type self-erecting tender assisted drilling rig with a flat bottom, raked stern and bow hull shape. The rig is designed for development drilling involving multiple well slots on fixed wellhead platforms in up to 6,000 ft of water with pre-laid mooring.
