What does a drill rig look like?

At its test site, the rig looks similar to a manually operated drill but features lidar and cameras on the machine's front, back and top. There are also automation mode ("safe-to-board") lights for transitioning from remote to local operations.

Is the smartroc D65 a good rig for pre-split drilling?

The SmartROC D65 Autonomous has also had an edge in pre-split drilling. At Iron Bridge, operators drill up to 30m at an angle, meaning it's relatively easy for unintended deviations in holes. The autonomous rig has been more precise in these scenarios, making for better drilling predictions and, in turn, easier drill plan adjustments.
