

Epiroc Top Hammer Hydraulic Rock Drill

What tools can be used with Epiroc drill rigs?

The configurator allow users to match rock drilling tools with Epiroc drill rigs. This first version includes top hammer, COPROD and DTH and in the future the rotary product line will also be added. In addition to the selector and configurator, we have an alternative product finder.

Why should you choose Epiroc for top hammer rock drilling?

It means you can work with the strongest support network in the industry. It means that you can look to one reliable and time-tested source for all your equipment needs. Of course, you'd expect Epiroc to have the most productive top hammer rock drilling equipment in the world.

Why should you choose Epiroc drilling tools?

Applications Epiroc Drilling Tools has the broadest range of top hammer drill strings and related equipment of any supplier in the world. This means more choices for you. It means you can work with the strongest support network in the industry. It means that you can look to one reliable and time-tested source for all your equipment needs.

Why should you choose Epiroc for top hammer drill strings?

Epiroc has the broadest range of top hammer drill strings and related equipment of any supplier in the world. This means more choices for you. It means you can work with the strongest support network in the industry. It means that you can look to one reliable and time-tested source for all your equipment needs.

What are Epiroc DTH drill bits?

A noticeable feature of Epiroc DTH drill bits is that they have more buttons, which increases the energy released when drilling. The bits also include the new Epiroc carbide, resulting in less wear, longer service life and fewer interruptions. With improved heat treatment and increased face hardness, the body is harder, tougher and sturdier.

What is Epiroc SR drill string?

The Epiroc SR drill string family are developed for underground rock excavation and surface drilling projects, where there is a demand for high quality of bolting and drifting equipment. Main benefits Easier to uncouple the bit thanks to the intelligent design of the thread system.

Our surface drilling machines are equipped with world class components including Epiroc rock drills. Our drill rigs can be fitted with a large number of ...

Even in the worst imaginable terrain conditions, utilization of the rig is high, thanks to the long reach of the boom, low center of gravity, and the hydraulic support leg that can be used during ...

Epiroc Top Hammer Hydraulic Rock Drill

SpeedROC 3F Drilling rig for granite, limestone, marble, and sandstone in the dimension stone quarrying industry. Drilling method: Tophammer Rock drill/ DTH hammer size: COP DS5 Hole ...

Epiroc has a long history with designing and manufacturing main structures of rigs putting our rotary blast hole drills at the top of their class. The blast hole range ...

PowerROC T45 is a tophammer drill rig optimized for larger construction work and quarry applications where simple flexibility in positioning is required. The ...

Adapted to the new generation of powerful hydraulic rock drills the Epiroc SR drill string family transmits that power into the rock efficiently and reliably. With a faster rate of advance it lowers ...

The hydraulic system has an increased drill rate compared to electrical systems, and it considerably more energy efficient than pneumatic drills. It saves your hearing as well - ...

History of the excavator hydraulic hammer Hydraulic breakers are the oldest hydraulic attachments for carriers. The first serial manufactured rock breaker ...

DELKOM PRODUCTION NETWORK Delkom manufactures all spare parts of underground and surface rock drilling machines in original quality with its large production line in its high-tech ...

The unique Epiroc VL 140 air rock drill with a unique cycle and piston design boosts drill efficiency. Down-the-hole tasks can be performed by utilizing BRH or ARH rotation units, ...

History of the excavator hydraulic hammer Hydraulic breakers are the oldest hydraulic attachments for carriers. The first serial manufactured rock breaker was the Krupp HM 400 in ...

When it comes to world-class rock drilling tools, you need to look no further than Epiroc. Our products are top-of-the-line. Guaranteed. Read more!

Rock Drill Sales is an authorized Epiroc drilling parts distributor located in Conyers, Ga. We offer a variety of high-quality drilling parts along with ...

Designed to reduce tensile shock waves in the drill string, a higher fatigue strength improves resistance and reliability, raising productivity with less wear, ...

The FlexiROC T35 R is developed and designed to deliver high performance in demanding construction applications. It is a very efficient alternative for small and medium size quarrying ...

The unbeatable drill strings Our shank adapters, drill rods and powerful tophammer drill bits work perfectly together, providing you with an unbeatable drill string. Look no further, we have the ...

Epiroc Top Hammer Hydraulic Rock Drill

The Epiroc surface drill bits product range covers all types of rock - from hard to soft, and from abrasive to non-abrasive. Thorough research, simulation and testing have allowed us to make ...

Beyond its design, the QL Series incorporates a hybrid valved design, maximizing air compressor productivity and optimizing air usage for enhanced overall drilling efficiency--a true pioneer in ...

TOP HAMMER DRILLS Epiroc ROC T15 Productivity in a Small Package Large boom coverage makes the rig suitable for a variety of construction applications ...

Epiroc genuine rock drill parts are designed with precise tolerances and material properties to ensure optimal rock drill performance. All of our parts are produced in our state of the art ...

Epiroc DTH products We have the broadest range of DTH drilling tools, such as hammers, bits, and related equipment of any supplier in the world. This means ...

We offer a variety of high-quality drilling parts along with excellent service to ensure that all of your project needs are met. Some of our products include ...

Our Epiroc product line of Top Hammer bits, commonly referred to as Button Bits, has been specially designed to drill through almost any type of hard and abrasive rock formations. ...

Optimise your drilling efficiency with Sandvik top hammer tools, delivering enhanced production, reduced maintenance, and sustainable operations.

Keystone Drill is a distributor and manufacturer of hammer drills and drill rigs for the oil and gas field, construction field and mining field.

Whatever the rock conditions, the PowerROC T35 helps ensure a high penetration rate and keep the cost of consumables low. The COP Logic system works in combination with a COP rock ...

Our rock drills are known for their high efficiency and constant hole bottom contact due to the double dampening system. Not only does PowerROC T50 have the powerful COP 3060 rock ...
