

Face drilling rigs in china

What is a face drilling rig?

Face drilling rigs, commonly called "drill jumbo's", are large, single or multi-boom machines used in underground hard-rock mines. Booms typically have six control axes to position and orient the boom tip at the rock face, to drill long holes for blasting which follow the trajectory of the ore body.

What is crawler drilling jumbo / face drilling rig?

Face Hydraulic Crawler Drilling Jumbo / Face Drilling Rig The crawler drilling jumbo, is a kind of underground construction machinery typically used in the drilling the blasting holes of tunnel, such as mining, diversion, railway and national defense tunnel, single or double booms can deal with different size of tunnel.

Who makes Jumo / face drilling rigs?

As the professional manufacturer of drilling jumbo / face drilling rigs, Siton produce and sell single and double booms drilling rigs. Recently, we have focused on developing a versatile, reliable and safe drill rig for mining conditions. The rig is built upon a modern design with many common components with the successful boomer face drilling rig.

How many booms can a jumbo drill rig have?

These jumbo drill rigs can be equipped with up to four booms, covering cross sections from 6 to 206 m². Designed to be used in drill-and-blast operations. The underground jumbo drill rigs from Epiroc are used for blast hole drilling in underground mining and tunneling.

Can a Jumo / face drilling rig be matched with a backhoe loader?

The face drilling rig can be matched tunnel excavator and backhoe loader. As the professional manufacturer of drilling jumbo / face drilling rigs, Siton produce and sell single and double booms drilling rigs. Recently, we have focused on developing a versatile, reliable and safe drill rig for mining conditions.

Do Boomer Jumbo drill rigs have a driveline?

Several models of the face drill rigs are available with an optional battery-electric driveline. Boomer underground jumbo drill rigs have a variety of automation features available. The Dynamic Tunneling package (DTP) is a software feature which lets the drill rig create custom made drill plans directly at the face of the tunnel.

Attributes of Face Drilling Rigs One of the greatest advantages of a face genuine rig is its capacity to drill through tough materials quickly and effortlessly. Furthermore, get ready to revolutionize ...

Drill Jumbos Series Product Our advanced underground drilling jumbo products are engineered for precision and efficiency in mining tunnels. Equipped with ...

Face drilling rigs in china

Face drilling rig is the rock drilling equipment traveled automatically, which are used for supporting, advancing, and moving one or more rock drills for the excavation of ...

Buy low price, high quality Underground Drilling Rigs, Development Drill Rigs, Face Drilling Jumbo. Welcome browse our website and contact us.

Drill rigs play a crucial role in various industries, including construction, mining, and oil exploration. In China, the demand for advanced drilling technology has surged, driven by ...

Welcome to Jiangxi Siton Machinery Manufacturing Co., Ltd.! Professional underground machine manufacturer since 1992 in China! We provide provide complete sets of equipment and ...

JINFAN is China drilling rig manufacturer, offer hydraulic crawler drilling rig, anchor drill rig, water well drilling rig, core drilling rig, in addition to drilling tools such as DTH hammer, eccentric ...

DW3-180 three-boom drill jumbo is specially developed and manufactured for tunnels of high-speed railway, water conservancy and hydropower projects, national defense and other ...

Face drill rigs from Siton are utilized in many applications, from mining and construction to oils and fuel drilling. They've been suitable for drilling in hard ...

Z20 two booms underground drilling jumbo is specially developed and manufactured for tunnels of high-speed railway, water conservancy and ...

DW2-180 Eagle arm full process double booms drilling jumbo is specially designed for multi-step synchronous and full-face excavation. The design of lengthened drill boom solves the defect ...

We're professional fk20-1bcdl face drilling rig manufacturers and suppliers in China, specialized in providing high quality products with good price. We warmly welcome you to buy fk20-1bcdl ...

A face drill rig is just a device useful to drill holes to your ground for different purposes, such as mining, excavation, and construction. This Siton rock drill rig might be an effective device that ...

KAISHAN provides a full range of drilling rigs designed for different applications in the mining, tunneling, and other infrastructure industries. Our product line ...

The rock face drill rigs market in China is witnessing robust growth, driven by ongoing infrastructure projects, mining expansions, and governmental initiatives promoting industrial...

Swedish firm Epiroc has secured a contract from Dazhong Mining to provide mining equipment and services
