

Folding braces for a 22w drill rig

What is the strike industries dual folding adapter stabilizing brace?

The Strike Industries Dual Folding Adapter Stabilizing Brace offers unmatched convenience and versatility, compatible with all pistols featuring a rear Picatinny rail. This patented system folds both left and right, ensuring flexibility without the need for reconfiguration.

How does a folding adapter work?

With its intuitive folding mechanism, you can fold the adapter to either the left or right side of your weapon platform. Without the need to reconfigure or reinstall any parts, the provided locking mechanism has a positive lock and ensures its ability to stay in place.

What pistols are compatible with the strike dual folding adapter stabilizing brace?

The Strike Dual Folding Adapter Stabilizing Brace is compatible with all pistols that feature a rear Picatinny rail and folds in both directions.

How do I Weld a stock rear piece?

For the stock rear piece, included is a rear rubber anti-slip buttpad to create the best possible shoulder weld for rifle or registered Short-Barrel Rifle (SBR) setups. A single QD point is located on the rear of the stabilizer and ambidextrous QD sling mounting points for the stock.

Are SB Tactical braces good for AR pistols?
