

Grey wolf drilling rigs

How much does Precision Drilling pay to acquire grey wolf?

Precision Drilling will pay \$1.12 billion US in cash and 42 million of its units to acquire Grey Wolf, which owns 121 drilling rigs in the United States -- 10 times more than Precision currently operates there. Precision's units fell 99 cents or 4.5 per cent to \$21.24 in Toronto trading on Monday.

Is grey wolf drilling in the Rocky Mountains?

The company has also entered a new drilling market, the Rocky Mountains, through a drilling contract with Burlington Resources. The company that emerged as Grey Wolf, Inc. in 1997, started out as DI Industries in 1980, an oil and gas exploration and production company founded by Max Dillard.

Who is grey wolf?

Grey Wolf, Inc., formerly DI Industries, is a Houston-based company that does onshore contract drilling, principally for natural gas. In its domestic operations, it uses a fleet of 120 drilling rigs. For years it operated drilling rigs overseas, but in 1998, in Venezuela, it shut down the last five rigs in its international operations.
