

Hand-held down-the-hole drill rig

Cat Rotary Blasthole Drill Rigs offer substantial technology, efficiency and productivity improvements to efficiently reach your mining targeted productivity rates. Learn more about ...

Drilling Machinery Down The Hole Drilling Machine Blast Hole Drill Rigs for Sale, Find Details and Price about Hand Held Rock Drilling Equipment Blast Hole Drills from Drilling Machinery Down ...

Amazon : handheld core drillCS Unitec | ETN 2001 P | Wet & Dry Diamond Core Drill. High-Torque, Heavy-Duty, Hand-Held, and Dual-Speed. Ideal for Drilling up to 3" in Diameter in ...

Y24 Hand-Held rock drill The YT24 leg-type rock drill is a highly efficient pneumatic rock drilling equipment widely used in mining, railway, transportation, and water conservancy construction ...

Power Technique products Find full details of the product you are looking for by drilling down through the images below, or click on the magnifying glass above to search for the type of ...

The light, very portable, post hole and tree planting auger drill that saves the operator from auger turning forces typically experienced when using hand ...

Our drilling rigs offer a variety of feed lengths, positioning configurations, rock drills, and optional automated features for underground production drilling and blast hole drilling in mining and ...

The SKQ100 DTH drilling rig is a pneumatic-powered machine that uses compressed air to generate mechanical force for efficient rock breaking. Driven by a reliable air motor, the ...

Down-the-hole drilling tools Of course, you'd expect Epiroc to have the most productive down-the-hole hammers in the world. And we do.

We supply drilling equipment and rock drill supplies for mining and construction projects in the USA and Canada. Get a free quote on drilling tools.

Our intelligent surface drill rigs bring the latest technology to surface mining applications. Designed to work in the toughest operating conditions, our ...

Down-the-hole drilling tools are widely used in geological exploration, mining, earthwork, water wells, and foundation piling projects. BD Drill currently have four series products: the Classic ...

The drills vary in size from small hand-held rock drills for drilling charge holes to large truck-mounted rigs

Hand-held down-the-hole drill rig

capable of drilling large diameter holes. There are two main types of percussion ...

The Down the Hole Drilling Machine is perfect for medium-sized mining and road construction projects, offering robust drilling capabilities in rugged terrains where other drills ...

From hand-held drill steels and bits to a complete selection of rods, couplings, and adaptors, we provide complete solutions for any percussive/drill and blast ...

I like the durable carrying case that's form-fitted to keep your core drill and other accessories (such as bits) in place without losing them. Things I Like About This Product: It ...

Smith Capital Equipment has been manufacturing Auger and DTH drill rigs for over 4 decades and our products include augering and down-the-hole rigs. Typically these are mounted onto ...

This series portable diesel rotary screw air compressor primarily used with construction and mining required 780-138mm DTH drill, bolting rig, various ...

The mini rock drilling machine is a small down-the-hole drilling machine, which can drill to a depth of 20~100m. It is small in size and easy to move and is ...

The RH560 DTH hammer is a robust and reliable addition to your mining and long-hole production drilling operations. It drills fast and lowers your drilling cost per hole.

Our small down the hole drilling rig, or DTH driller, is a kind of efficient, energy-saving, and cost-effective rock drilling equipment. It is designed all by ...

The MR-5 ID is a hydraulic drilling unit for using 2? or 3? down-the-hole hammer, or rock drill weighing 58 kg with separate right and left rotation, provided with ...

Summary The principal drilling methods used in mines today are mechanical ones in which a drill drives cutting tools into rock by means of static or dynamic force. Percussion rock drills are the ...

Hand-held machines usually are used for stope holes, as at A, and tripod-mounted machines are used for drilling flat "splitter" holes in hard ground, as at D. Down holes usually ...

Operating the equipment beyond its design limits can cause damage to people or equipment -- Know the maximum operating dimensions of your drill rig when the hammer is installed -- ...

Down-the-hole (DTH) hammer drilling is often used to drill large, deep holes in hard rock formations or concrete. It is, as the name tries to explain, a hammer ...

Hand-held down-the-hole drill rig

This series portable diesel rotary screw air compressor primarily used with construction and mining required 75-138mm DTH drill, bolting rig, various hand held drill machines, drifters, ...

Operating the equipment beyond its design limits can cause damage to people or equipment - Know the maximum operating dimensions of your drill rig when the hammer is installed - ...

The MR-5 ID is a hydraulic drilling unit for using 2" or 3" down-the-hole hammer, or rock drill weighing 58 kg with separate right and left rotation, ...

Having a knowledgeable and available world-class partner on site or online, makes the difference between doing it alone and tapping the experience and know-how. The customer can count on ...
