

Hava rock drill

What is Hava RH 656/4w?

I am Interested HAVA make Wet Rock Drill Machine RH 656/4W is water flushed hand held medium duty rock drill machine and used for inclined dustless drilling. Integrated with kick latch retainer and inbuilt air flushing, these machines offer optimum performance.

What is a water flushed rock drill machine?

This water flushed medium duty rock drill machine and rock drills is capable of drilling 27-48 mm diameter holes with H22 integral steel upto a depth of 6 meters. Wet Rock Drills are used for horizontal or inclined dustless drilling in conjunction with a pusher leg such as in underground mines and tunnels.

What is a medium duty Rock Drill?

This air flushed medium duty Rock Drill Dry machine and rock drills is capable of drilling 27-48 mm diameter holes with H22 integral steel upto a depth of 6 meters. Rock Drills can be used for holes upto 20 feet or over but are most efficient when confined to holes of not over 10 to 12 feet.

What is a wet rock drill?

Wet Rock Drills are used for horizontal or inclined dustless drilling in conjunction with a pusher leg such as in underground mines and tunnels. Drilling rate of 33 mm drill bit at an air pressure of 6kg/cm². Due to varying rock condition, actual result may be greater or lesser than those listed. Powerful drilling for higher penetration.

What are the benefits of using a rock drill?

Rock Drills can be used for holes upto 20 feet or over but are most efficient when confined to holes of not over 10 to 12 feet. Silencer in impact and wear resistant polyurethane reduces noise levels by more than 50%. Built-in air-flushing: Take the built-in air-flushing for example. As you drill, the hole is kept clean by a powerful jet of air.
