

Heli rig drilling

TD110 Heli-Portable Drill Our TD110 skid mounted Drill is compact yet powerful and has been purpose built for heli-lifting. It can be flown in as 2 x 1100kg ...

DA Smith's heliportable Longyear HC-150 diamond core drill is designed with modular components that can be disassembled into lightweight components (<1,500 pounds) for ...

LF(TM)70 Surface Coring Drill Rig Mobility The LF(TM)70 modular design consists of seven sections that are heliportable for reaching remote locations. This drill reduces downtime when ...

MPP's helicopter portable RC (reverse circulation) drill, the Hornet was developed for drilling programs in remote areas. The Hornet features a 45 HP Kubota ...

ConeTec has developed custom equipment for heli-portable or remote access site investigations with mobilization restrictions. We can provide equipment packages for accessing any site, ...

The Canterra HP-200 is one of the most unique and versatile helicopter portable geotechnical drill rigs within Geotech's fleet. The HP-200's auto SPT hammer and top head design allows it to ...

Drilling Rig 103 Client Owned Rigs operated by High Arctic Energy Services 1500 HP Drilling Rigs with Leap Frog Packages. All associated loads are heli ...

Multi-Power is excited to announce the launch of our redesigned Discovery II - Helicopter Portable Core Drill. With 12+ years of field operation and feedback from 60+ machines ...

Helicopter Drilling DA Smith is experienced with helicopter-access core and rotary drilling in remote locations for mining and civil projects. DA Smith possesses ...

We have several lightweight rigs that enable drilling to occur up to 120ft above the ground working from a Skyreach or crane. Our rigs can be lifted in by ...

Helicopters are crucial to the offshore energy industry, serving as a key means of transportation for crews working on offshore oil rigs and wind farms.

Drill rigs are mounted on a heli-portable base platform with hydraulic jack legs for stabilisation on rugged ground. The rig and ancillary equipment can be ...

Still the quintessential Helicopter Fly-In Rig, the BUSHMASTER is a modular, all hydraulic core drill rig

Heli rig drilling

designed for quick breakdown and setup in the most ...

Heli-Rig Heli-Rig is one of the rig design concepts for shallow water environments. 1. Independent of water depth. Requires a support structure which in itself would not be helicopter ...

Rig Highlights The EDM 30K sets the benchmark for heli-portable drills bwith its state-of-the-art design and world-leading safety features fitted as standard equipment. The drill is designed to ...

Godbe Drilling specializes in surface, underground, and helicopter-supported mineral exploration diamond core drilling for any formation or location in the United States and Mexico.

Helicopter Portable Equipment When you contract with Godbe Drilling, you get the benefit of all-terrain mobility and advanced technical exploration. We utilize ...

This rig is designed for modular picks allowing for easy sling loads and quick assembly. With an extremely efficient and simple hydraulic system, the Hydracore 2000 is constructed to ensure ...
